CERTIFICATE OF INSURANCE RULES

TEXAS DEPT. OF INSURANCE
AUSTIN, TEXAS
APPROVED
JUN 03 2014

Certificates of Insurance are issued as requested by the Insured and Agent/Broker. These certificates typically provide proof of coverage as required by state and federal government entities to include airport authorities, military agencies, as well as mortgage lienholders, aircraft storage facilities, charter customers, etc.

The attached certificate form is designed to reflect a wide variety of coverage combinations that may be purchased by the Insured. Based on the fact that the types of aircraft and their utilization vary greatly, (fixed wing, helicopter, single or multi-engine, piston or turbine engines, etc.) the Insured may purchase a wide variety of coverage options. We have designed this form with drop down menus that will allow us to reflect a wide variety of coverage options from a single form. Without changing the appearance of the form itself, we reserve the right to add or delete items from the drop down menus based on coverages that we may offer or withdraw in the future through policy forms and amendments submitted to and approved by the state.
