TXFLSE (Texas Fire and Life Safety Educators) E-Group Request for Membership

TXFLSE (Texas Fire and Life Safety Educators) is a group, similar to the national NFLSE group, for Texas fire and life safety educators. This group is created to provide a way for public education colleagues to ask questions, discuss issues, share ideas, solve problems, and exchange information about fire and life safety education and to provide a vehicle for the statewide dissemination of programs, initiatives, announcements and events related to safety education.

The group is closely moderated and will require membership approval by the moderator. Conditions of approval will be that candidate members must either be active fire and life safety public educators or work in government or private agencies that have a logical link to fire and life safety public education. The group moderator will screen candidates requesting membership and may require the candidate to provide data or information, ideas about education or otherwise useful information as a condition of membership. The group moderator will guard the integrity of the group.
