

**SUBCHAPTER C. Assessment of Maintenance Taxes and Fees  
28 TAC §1.414**

**1. INTRODUCTION.** The Texas Department of Insurance adopts amendments to 28 Texas Administrative Code §1.414, concerning the 2014 assessment of maintenance taxes and fees imposed by the Texas Insurance Code. The amendments are adopted without changes to the proposed text published in the November 15, 2013, issue of the *Texas Register* (38 TexReg 8094).

Under Government Code §2001.033(a)(1), the department's reasoned justification for these amendments is set out in this order, which includes the preamble and rules.

**2. REASONED JUSTIFICATION.** The amendments are necessary to adjust the rates of assessment for maintenance taxes and fees for 2014 on the basis of gross premium receipts for calendar year 2013 and follow the methodology described below.

Section 1.414 includes rates of assessment to be applied to life, accident, and health insurance; motor vehicle insurance; casualty insurance and fidelity, guaranty, and surety bonds; fire insurance and allied lines, including inland marine; workers' compensation insurance; workers' compensation self-insured groups; title insurance; health maintenance organizations (HMOs); third party administrators; nonprofit legal services corporations issuing prepaid legal services contracts; and workers' compensation certified self-insurers.

In general, the department's 2014 revenue need (the amount that must be funded by maintenance taxes or fees; examination overhead assessments; the department's self-directed budget account, as established under Insurance Code §401.252; and premium finance examination assessments) is determined by calculating the department's total cost need, and subtracting from that number funds resulting from fee revenue and funds remaining from fiscal year 2013.

To determine total cost need, the department combined costs from: (i) appropriations set out in Chapter 1411 (Senate Bill 1), Acts of the 83rd Legislature, Regular Session, 2013 (the General Appropriations Act), which come from two funds, the General Revenue Dedicated - Texas Department of Insurance Operating Account No. 0036 (Account No. 0036) and the General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees; (ii) funds allowed by Insurance Code Chapter 401, Subchapters D and F, as approved by the commissioner of insurance for the self-directed budget account in the Treasury Safekeeping Trust Company to be used exclusively to pay examination costs associated with salary, travel, or other personnel expenses and administrative support costs; (iii) an estimate of other costs statutorily required to be paid from those two funds and the self-directed budget account, such as fringe benefits and statewide allocated costs; and (iv) an estimate of the cash amount necessary to finance both funds and the self-directed budget account from the end of the 2014 fiscal year until the next assessment collection period in 2015. From these combined costs, the department subtracted costs attributable to the Division

of Workers' Compensation (DWC) and the workers' compensation research and evaluation group.

The department determined how to allocate the remaining cost need attributed to each funding source using the following method:

For each section within the department that provides services directly to the public or the insurance industry, the department allocated the costs for providing those direct services on a percentage basis to each funding source, such as the maintenance tax or fee line, the premium finance assessment, the self-directed budget account, the examination assessment, or another funding source. The department applied these percentages to each section's annual budget to determine the total direct cost to each funding source. The department calculated the percentage for each funding source by dividing the total directly allocated to each funding source by the total direct cost. The department used this percentage to allocate administrative support costs to each funding source. Administrative support costs include services provided by human resources, accounting, budget, the commissioner's administration, and information technology. The department calculated the total direct costs and administrative support costs for each funding source.

The General Appropriations Act includes appropriations to state agencies other than the department that must be funded by Account No. 0036 and the General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees. The department adds these costs to the sum of the direct costs when possible. For instance, the department allocates an appropriation to the Texas Department of

Transportation for the crash information records system to the motor vehicle maintenance tax. The department includes costs for other agencies that cannot be directly allocated to a funding source to the administrative support costs. For instance, the department includes an appropriation to the Texas Facilities Commission for building support costs in administrative support costs.

The department calculates the total revenue need after completing the allocation of costs to each funding source. To complete the calculation of revenue need, the department removes costs, revenues, and the fund balance related to the self-directed budget account. Based on remaining balances, the department reduces the total cost need by subtracting the estimated ending fund balance for fiscal year 2013 (August 31, 2013) and estimated fee revenue collections for fiscal year 2014. The resulting balance is the estimated revenue need that must be supported during the 2014 fiscal year by the following funding sources: the maintenance taxes or fees, exam overhead assessments, and premium finance exam assessments.

The department determines the revenue need for each maintenance tax or fee line by dividing the total cost need for each maintenance tax line by the total of the revenue needs for all maintenance taxes. The department multiplies the calculated percentage for each line by the total revenue need for maintenance taxes. The resulting amount is the revenue need for each maintenance tax line. The department adjusts the revenue need by subtracting the estimated amount of fee and reimbursement revenue collected for each maintenance tax or fee line from the total of

the revenue need for each maintenance tax or fee line. The department further adjusts the resulting revenue need as described in the following paragraphs.

The cost allocated to the life, accident, and health maintenance tax exceeds the amount of revenue that can be collected at the maximum rate set by statute. The department allocates the difference between the amount estimated to be collected at the maximum rate and the costs allocated to the life, accident, and health maintenance tax to the other maintenance tax or fee lines. The department allocates the life, accident, and health shortfall based on each of the remaining maintenance tax or fee lines' proportionate share of the total costs for maintenance taxes or fees. The department uses the adjusted revenue need as the basis for calculating the maintenance tax rates.

For each line of insurance, the department divides the adjusted revenue need by the estimated premium volume or assessment base to determine the rate of assessment for each maintenance tax or fee.

The following paragraphs provide an explanation of the methodology to develop the proposed rates for DWC and the Office of Injured Employee Counsel (OIEC).

To determine the revenue need, the department considered these factors applicable to costs for DWC and OIEC: (i) the appropriations in the General Appropriations Act for fiscal year 2014 from Account No. 0036; (ii) estimated other costs statutorily required to be paid from Account No. 0036, such as fringe benefits and statewide allocated costs; and (iii) an estimated cash amount to finance Account No. 0036 costs from the end of the 2014 fiscal year until the next assessment collection

period in 2015. The department adds these three factors to determine the total revenue need.

The department reduces the total revenue need by subtracting the estimated fund balance at August 31, 2013, and the DWC fee and reimbursement revenue estimated to be collected and deposited to Account No. 0036 in fiscal year 2014. The resulting balance is the estimated revenue need from maintenance taxes. The department calculated the maintenance tax rate by dividing the estimated revenue need by the combined estimated workers' compensation premium volume and the certified self-insurers' liabilities plus the amount of expense incurred for administration of self-insurance.

The following paragraphs explain the methodology the department used to develop the proposed rates for the workers' compensation research and evaluation group.

To determine the revenue need, the department considered the following factors applicable to the workers' compensation and research and evaluation group: (i) the appropriations in the General Appropriations Act for fiscal year 2014 from Account No. 0036 and from General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees; (ii) estimated other costs statutorily required to be paid from this funding source, such as fringe benefits and statewide allocated costs; and (iii) an estimated cash amount to finance costs from this funding source from the end of the 2014 fiscal year until the next assessment collection period in 2015. The department adds these three amounts to determine the total revenue need.

The department reduced the total revenue need by subtracting the estimated fund balance at August 31, 2013. The resulting balance is the estimated revenue need from maintenance taxes. The department calculated the maintenance tax rate by dividing the estimated revenue need by the estimated assessment base.

The following paragraphs provide a brief summary and analysis of the reasons for the adopted amendments.

The amendment to the section heading reflects the year for which the proposed assessment of maintenance taxes and fees is applicable. The amendments in subsections (a) - (f), and (h) reflect the appropriate year for accurate application of the section.

Amendments in subsections (a)(1) - (9), (c)(1) - (3), and (d) - (f) update rates to reflect the methodology the department developed for 2014.

Finally, amendments in subsections (a)(1) - (9), (b), (c)(1) - (3), and (d) - (f) are nonsubstantive in nature to conform with the department's writing style guides. Every appearance of the words "pursuant to the" is changed to "under."

to reimburse the appropriate portion of the general revenue fund under Insurance Code §201.052. Section 271.005 provides that rate of assessment set by the commissioner may not exceed 1.0 percent of the gross premiums subject to assessment under Insurance Code §271.006. Section 271.005 also provides that the commissioner must annually adjust the rate of assessment of the maintenance fee so that the fee imposed that year, together with any unexpended funds produced by the fee, produces the amount the commissioner determines is necessary to pay the expenses during the succeeding year of regulating title insurance. Section 271.006 requires an insurer to pay maintenance fees under this chapter on the correctly reported gross premiums from writing title insurance in Texas.

Labor Code §403.002 imposes an annual maintenance tax on each insurance carrier to pay the costs of administering the Texas Workers' Compensation Act and to support the prosecution of workers' compensation insurance fraud in Texas. Labor Code §403.002 also provides that the assessment may not exceed an amount equal to 2.0 percent of the correctly reported gross workers' compensation insurance premiums, including the modified annual premium of a policyholder that purchases an optional deductible plan under Insurance Code Article 5.55C. Labor Code §403.002 also provides that the rate of assessment be applied to the modified annual premium before application of a deductible premium credit. Additionally, Labor Code §403.002 states that a workers' compensation insurance company is taxed at the rate established under Labor Code §403.003, and that the tax must be collected in the manner provided for collection of other taxes on gross premiums from a workers' compensation insurance

company as provided in Insurance Code Chapter 255. Finally, Labor Code §403.002 states that each certified self-insurer must pay a fee and maintenance taxes as provided by Labor Code Chapter 407, Subchapter F.

Labor Code §403.003 requires the commissioner to set and certify to the comptroller the rate of maintenance tax assessment, taking into account: (i) any expenditure projected as necessary for DWC and OIEC to administer the Texas Workers' Compensation Act during the fiscal year for which the rate of assessment is set and reimburse the general revenue fund as provided by Insurance Code §201.052; (ii) projected employee benefits paid from general revenues; (iii) a surplus or deficit produced by the tax in the preceding year; (iv) revenue recovered from other sources, including reappropriated receipts, grants, payments, fees, gifts, and penalties recovered under the Texas Workers' Compensation Act; and (v) expenditures projected as necessary to support the prosecution of workers' compensation insurance fraud. Labor Code §403.003 also provides that in setting the rate of assessment, the commissioner may not consider revenue or expenditures related to the State Office of Risk Management, the workers' compensation research functions of the department under Labor Code Chapter 405, or any other revenue or expenditure excluded from consideration by law.

Labor Code §403.005 provides that the commissioner must annually adjust the rate of assessment of the maintenance tax imposed under §403.003 so that the tax imposed that year, together with any unexpended funds produced by the tax, produces the amount the commissioner determines is necessary to pay the expenses of

administering the Texas Workers' Compensation Act. Labor Code §405.003(a) - (c) establishes a maintenance tax on insurance carriers and self-insurance groups to fund the workers' compensation research and evaluation group, it provides for the department to set the rate of the maintenance tax based on the expenditures authorized and the receipts anticipated in legislative appropriations, and it provides that the tax is in addition to all other taxes imposed on insurance carriers for workers' compensation purposes.

Labor Code §407.103 imposes a maintenance tax on each workers' compensation certified self-insurer for the administration of the DWC and OIEC and to support the prosecution of workers' compensation insurance fraud in Texas. Labor Code §407.103 also provides that not more than 2.0 percent of the total tax base of all certified self-insurers, as computed under subsection (b) of the section, may be assessed for the maintenance tax established under Labor Code §407.103. Labor Code §407.103 also provides that to determine the tax base of a certified self-insurer for purposes of Labor Code Chapter 407, the department must multiply the amount of the certified self-insurer's liabilities for workers' compensation claims incurred in the previous year, including claims incurred but not reported, plus the amount of expense incurred by the certified self-insurer in the previous year for administration of self-insurance, including legal costs, by 1.02. Labor Code §407.103 also provides that the tax liability of a certified self-insurer under the section is the tax base computed under subsection (b) of the section multiplied by the rate assessed workers' compensation insurance companies under Labor Code §§403.002 and 403.003. Finally, Labor Code

§407.103 provides that in setting the rate of maintenance tax assessment for insurance companies, the commissioner may not consider revenue or expenditures related to the operation of the self-insurer program under Labor Code Chapter 407.

Section 407.104(b) provides that the department must compute the fee and taxes of a certified self-insurer and notify the certified self-insurer of the amounts due. Section 407.104(b) also provides that a certified self-insurer must remit the taxes and fees to DWC.

Labor Code §407A.301 imposes a self-insurance group maintenance tax on each workers' compensation self-insurance group based on gross premium for the group's retention. Labor Code §407A.301 provides that the self-insurance group maintenance tax is to pay for the administration of DWC, the prosecution of workers' compensation insurance fraud in Texas, the research functions of the department under Labor Code Chapter 405, and the administration of OIEC under Labor Code Chapter 404. Labor Code §407A.301 also provides that the tax liability of a group under subsection (a)(1) and (2) of the section is based on gross premium for the group's retention multiplied by the rate assessed insurance carriers under Labor Code §403.002 and §403.003. Labor Code §407A.301 also provides that the tax liability of a group under subsection (a)(3) of the section is based on gross premium for the group's retention multiplied by the rate assessed insurance carriers under Labor Code §405.003. Additionally, Labor Code §407A.301 provides that the tax under the section does not apply to premium collected by the group for excess insurance. Finally, Labor Code §407A.301(e) provides that the

tax under the section must be collected by the comptroller as provided by Insurance Code Chapter 255 and Insurance Code §201.051.

Labor Code §407A.302 requires each workers' compensation self-insurance group to pay the maintenance tax imposed under Insurance Code Chapter 255, for the administrative costs incurred by the department in implementing Labor Code Chapter 407A. Labor Code §407A.302 provides that the tax liability of a workers' compensation self-insurance group under the section is based on gross premium for the group's retention and does not include premium collected by the group for excess insurance. Labor Code §407A.302 also provides that the maintenance tax assessed under the section is subject to Insurance Code Chapter 255, and that it must be collected by the comptroller in the manner provided by Insurance Code Chapter 255.

Insurance Code §36.001 provides that the commissioner may adopt any rules necessary and appropriate to implement the powers and duties of the department under the Insurance Code and other laws of this state.
