

Data Collection & Analysis Training

Vision 20/20 has unlocked the mystery surrounding collection and analysis of data for your Community Risk Assessment. This free three-day training breaks the process down into a linear set of well-defined and manageable tasks to draft a basic CRA. Students use various organizational data sets along with Vision 20/20's intuitive training, tools, and Vision 20/20's proprietary template to quickly and efficiently draft their CRA, setting the foundation for organizational CRR planning and implementation. The Data Collection & Analysis training was developed with Vision 20/20's philosophy to Educate, Equip, & Engage, and is a strategic investment to build a vital skillset for current and future fire service leaders.

Course Information & Registration

August 20-22, 2024

Barbara Jordan Building
1601 Congress Ave., Room 2.034
Austin, TX 78701
