#### NOTICE

This Texas Commercial Lines Statistical Plan (Plan) has been adopted by the Texas Department of Insurance (TDI) after due consideration under the rule adopted pursuant to the Insurance Code, Chapter 38, Subchapter E that authorizes TDI's adoption of the Plan. The Plan is adopted for mandatory use by all insurers writing commercial lines insurance in the State of Texas. As part of the approval process under the Insurance Code, Chapter 38, Subchapter E, specific components of the Plan were offered to TDI by the Insurance Services Office, Inc. (ISO) for adoption. As adopted by TDI, the entire Plan constitutes part of the rules and regulations of TDI.

A copyright and proprietary interest in certain parts of the text of the Plan has been asserted by ISO; these parts are indicated by underlined text. TDI neither affirms nor disclaims such assertion by ISO, nor waives any rights or defenses through adoption and publication of the Plan, or otherwise.

Consent has been granted by ISO to insurance carriers licensed to write commercial lines in the State of Texas to reproduce and use ISO's proprietary and copyrighted materials for the sole purpose of complying with the requirements of the Plan and any other requirements of the Commissioner of Insurance, and to reproduce this material, or have it reproduced, solely for use in the State of Texas.

# STATISTICAL PLAN

This document is the Texas Commercial Lines Statistical Plan. This Plan has been promulgated by the Texas Commissioner of Insurance pursuant to 28 Tex. Admin. Code §5.9501. Pursuant to §5.9501(a)(4), this Plan applies to all reports required to be filed with the Department under §5.9501 and this Plan for reporting periods beginning on or after April 1, 2017, (revised March 2016).

This Plan provides instructions for the reporting of direct commercial lines business written in the state of Texas. Every company licensed in Texas with direct business in Texas shall report its experience according to the instructions in this Plan. This Plan is organized into the following sections:

Section	Pages
General Reporting Instructions  General Instructions  General Instructions - Premiums and Losses  General Instructions - Premiums  General Instructions - Losses  Attachments	1 - 51

# **General Reporting Instructions**

#### 1. Texas Commercial Lines Statistical Plan

This document is the Texas Commercial Lines Statistical Plan. The Statistical Plan has been promulgated by the Texas Commissioner of Insurance. Any questions about reporting requirements, the definition of data elements and/or the use of data reported to the designated statistical agent shall be directed to the Texas Department of Insurance:

Texas Department of Insurance

ATTN: Property and Casualty Actuarial Office

MC 105-5D

P.O. Box 149104

Austin, TX 78714-9104 Phone: 512-475-3026

Email: datacall@tdi.texas.gov

### 2. Statistical Agent

The Texas Commissioner of Insurance has designated the Insurance Service Office, Inc. (ISO) as the statistical agent for Texas commercial lines experience. The statistical agent serves the Commissioner of Insurance. General questions about the physical reporting of data or data formats required in this Plan shall be directed to ISO via <a href="mailto:statistical@iso.com">statistical@iso.com</a>. For aid with specific data reporting issues, please reference the Persons to Contact section of the ISO Texas Operating Procedures Manual for an individual to provide assistance. The Texas Operation Manual is available at <a href="https://www.verisk.com/TOPM.pdf">www.verisk.com/TOPM.pdf</a>.

### 3. Direct Business Reporting

Every company licensed in Texas with direct commercial lines or "miscellaneous personal lines" business in Texas shall report its experience in accordance with instructions set forth in this Plan.

Reports shall not include premiums received from, or losses paid to, other companies because of reinsurance assumed by the reporting company. No deductions shall be made by the reporting company for premiums ceded to, or for losses recovered from, other companies because of reinsurance ceded.

### 4. Required Reports

The Texas Commercial Lines Statistical Plan contains the following reports:

- A. Quarterly Liability Experience Report
  - All companies licensed in Texas writing direct commercial liability business in Texas shall quarterly submit this report of premium and loss experience. This report is due 45 days after the end of the experience quarter.
- B. Quarterly Property Experience Report
  All companies licensed in Texas writing direct commercial
  property business in Texas shall quarterly submit this
  report of premium and loss experience. This report is due
  45 days after the end of the experience quarter.
- C. Quarterly Businessowners Experience Report
  All companies licensed in Texas writing direct commercial businessowners business in Texas shall quarterly submit this report of premium and loss experience. This report is due 45 days after the end of the experience quarter.

- D. Quarterly Commercial Automobile Experience Report
  All companies licensed in Texas writing direct commercial
  automobile business in Texas shall quarterly submit this
  report of premium and loss experience. This report is due
  45 days after the end of the experience quarter.
- E. Quarterly Miscellaneous Commercial Experience Report
  All companies licensed in Texas writing direct commercial
  glass, boiler & machinery, burglary & theft, inland marine,
  or other special commercial business in Texas shall
  quarterly submit, separately by line, this report of
  premium and loss experience. These reports are due 45 days
  after the end of the experience quarter.
- F. Quarterly Fidelity & Surety Experience Report
  All companies licensed in Texas writing direct fidelity and surety business in Texas shall quarterly submit this report of premium and loss experience. This report is due 45 days after the end of the experience quarter.
- G. Quarterly Miscellaneous Personal Experience Report
  All companies licensed in Texas writing direct personal
  glass, inland marine, liability, burglary & theft, or
  special personal business in Texas shall quarterly submit
  this report of premium and loss experience. This report is
  due 45 days after the end of the experience quarter.
- H. Farm and Ranch Annual Experience Report See section for reporting instructions.
- I. Farm and Ranchowners Annual Experience Report See section for reporting instructions.
- J. Annual Mortgage Guaranty Experience Report
  [To be distributed at a later date]

### 5. Reporting Media and Data Formats

All reports described in Section 4 of these General Instructions shall be submitted on tape or disk. Experience for multiple companies may be submitted on a single tape or disk. Include a separate transmittal form for each reporting company.

#### A. Tape Reporting

Tapes shall be round reel (1600 or 6250 BPI, capable of being read by a 3420 tape drive) or cartridge (3480 standard or 3480 IDRC Compacted) with a block size not greater than 32,760. Report all data according to the field positions described in this Plan. Alphanumeric (text) entries shall be left aligned. Numeric entries shall be right aligned. Each data element is identified in the specific instructions as either numeric or alphanumeric. Numeric and alphanumeric fields must be zero filled. Negative amounts shall be indicated in the units position as follows:

Value	Symbol	Hex Code
-0	}	D0
-1	J	D1
-2	K	D2
-3	L	D3
-4	M	D4
-5	N	D5
-6	0	D6
-7	P	D7
-8	Q	D8
-9	R	D9

### B. Disk Reporting -- File Formats

CD or DVD with the data presented in the following format: ASCII Fixed Field Length format. Each field is the same length (number of columns) and in the same position for every record. The position locations for each field described in this Plan are relevant only for tape reporting and ASCII Fixed Field Length disk reporting. Alphanumeric (text) entries shall be left aligned. Numeric entries shall be right aligned. Each data element is identified in the specific instructions as being either numeric or alphanumeric. Numeric and alphanumeric fields must be zero filled. Negative entries shall be indicated as described above for tape reporting.

### C. Disk Reporting -- File Name Conventions

For disk reporting, the following conventions shall be used for naming files:

File Name is AAABBBBB.TXT where:

AAA is one of the following report codes;

```
QL1 for 1st Quarter Liability
QL2 for 2nd Quarter Liability
QL3 for 3rd Quarter Liability
QL4 for 4th Quarter Liability
QP1 for 1st Quarter Property
QP2 for 2nd Quarter Property
QP3 for 3rd Quarter Property
QP4 for 4th Quarter Property
OB1 for 1st Quarter Businessowners
QB2 for 2nd Quarter Businessowners
QB3 for 3rd Quarter Businessowners
QB4 for 4th Quarter Businessowners
QA1 for 1st Quarter Commercial Automobile
QA2 for 2nd Quarter Commercial Automobile
QA3 for 3rd Quarter Commercial Automobile
QA4 for 4th Quarter Commercial Automobile
QC1 for 1st Quarter Miscellaneous Commercial
QC2 for 2nd Quarter Miscellaneous Commercial
QC3 for 3rd Quarter Miscellaneous Commercial
QC4 for 4th Quarter Miscellaneous Commercial
QF1 for 1st Quarter Fidelity & Surety
QF2 for 2nd Quarter Fidelity & Surety
QF3 for 3rd Quarter Fidelity & Surety
QF4 for 4th Quarter Fidelity & Surety
QM1 for 1st Quarter Miscellaneous Personal
QM2 for 2nd Quarter Miscellaneous Personal
QM3 for 3rd Quarter Miscellaneous Personal
QM4 for 4th Quarter Miscellaneous Personal
```

 $\,$  AMG for Annual Mortgage Guaranty  $\,$  BBBBB is the NAIC Company Number.

TXT indicates ASCII Fixed Field Length Format.

File compression using the ZIP format is allowed. Multiple files may be compressed into one ZIP file.

### 6. External Tape and Disk Labels

Each tape or disk submitted shall have an external label showing the company name, NAIC code, submission date and experience reported (i.e., 1Q/95 liability). If the tape or disk contains experience for multiple companies, include the name and NAIC number of each company. The group name and number alone are not sufficient.

Each tape label shall also include record length and block size, tape number (if multiple tapes are submitted), and format (EBCDIC or ASCII, labeled or unlabeled).

Each disk label shall also include data format, file name(s) and disk number (if multiple disks are submitted).

### 7. Data Quality Acceptance Standards

Upon receipt of submitted data, the statistical agent will conduct a basic edit check of reported data. If the information on the transmittal form does not agree with the data on the tape/disk or if greater than 1% of the records contain invalid formats, invalid codes and/or illogical entries, the statistical agent will reject the data submission and return it to the reporting company for correction and resubmission.

The statistical agent will make available a basic edit package so companies may edit data prior to submission to the statistical agent.

In addition to the basic edit checks, the statistical agent will employ other means for verifying the accuracy of reported data. The statistical agent may reject faulty data and require resubmission of corrected data.

### 8. County Mutuals' Reporting Requirements

This Texas Statistical Plan for Commercial Lines requires County Mutual insurance companies to report their experience to the statistical agent for the very first time. Some County Mutuals operate as traditional insurers through independent and captive agents. Other County Mutuals "sell their paper" to Managing General Agents (MGA's). Under this procedure, the MGA establishes the underwriting guidelines and rates for the program and lines up a reinsurance (usually 100%) program. For a fee to the County Mutual, the MGA sells insurance using the County Mutual's name. For the purposes of this statistical plan, we refer to these types of County Mutual - MGA relationships as "fronting".

All County Mutuals that front for one or more MGA's writing direct business in the state of Texas shall report all data required in this statistical plan <u>separately</u> for each MGA, in addition to reporting the County Mutual's own direct business. For the purposes of reporting individual MGA activity, each fronting County Mutual shall assign a permanent and unique 3-digit code to each MGA. The unique 3-digit code assigned to each MGA by a County Mutual must be the same for all required statistical plans in the state of Texas, including the Texas Statistical Plan for Residential Risks, and The Texas Private Passenger Automobile Statistical Plan.

County Mutuals that are unable to report in sufficient detail as required by this statistical plan  $\underline{\text{must}}$  contact the Texas Department of Insurance for further instructions.

Every County Mutual with a fronting arrangement as described in this section shall initially report the legal business name, legal business address and assigned 3-digit code for relevant MGA's to the statistical agent. Every County Mutual with a fronting arrangement as described in this section shall immediately notify the statistical agent of any additions, deletions, or changes to the initial list of relevant MGA's.

#### 9. Reconciliation to Financial Data

Following the processing of each quarterly submission, the statistical agent shall prepare a summary of the premiums and losses submitted by the company by annual statement line of business for the latest accounting quarter. This summary shall be provided to the reporting company. The company shall promptly review this summary, compare the amounts to its own records, and shall immediately notify the statistical agent of any unexplained differences.

On an annual basis, the statistical agent shall compare the amounts reported under the statistical plans by line of business to the corresponding amounts reported by each company on the Annual Statement Texas Page 14. Companies will be required to provide an explanation of any material difference.

### 10. Unit Transaction Reporting

Experience is to be reported on a unit transaction basis.

Premium, loss, allocated loss adjustment expense, and salvage and subrogation transactions shall reflect incremental changes. At any date, the inception-to-date amount paid or received is the accumulation of the individual transactions.

Outstanding loss and outstanding allocated loss adjustment expense transactions shall reflect the current value of the outstanding amount rather than an incremental change to a previously reported amount.

The latest outstanding amount reported in an accounting quarter for a particular claim shall be understood to equal the outstanding amount at the end of that quarter. If no outstanding amount is reported for a claim for an accounting quarter, it shall be understood that the outstanding amount for that claim at the end of that quarter is zero.

### 11. Accounting Date

The accounting date is the date the transaction was recorded on the reporting company's books.

The accounting date shall be reported in YYMM format. The accounting date may either be reported based on the actual date or else as any other date within the same quarter. For example, all transactions with accounting date in the first quarter of 19XX may be reported with an accounting date of XX03.

### 12. Experience To Be Reported

Each quarterly report shall include all transactions with an accounting date within the experience quarter.

### 13. Record Type

Each quarterly report contains two record types:

Code Record Type

- 1 Premium
- 2 Loss

All premium transactions shall be reported as premium records. All paid loss, outstanding loss, paid allocated loss adjustment expense, outstanding allocated loss adjustment expense and salvage and subrogation shall be reported as loss records.

#### 14. Transaction Identifiers

Transaction Identifiers shall be reported on all transactions to identify the type of transaction involved. See Attachment 1, page 27, for a list of valid codes.

### 15. Rounding

All premium, policy/membership fees, loss, allocated loss adjustment expense, and salvage and subrogation amounts shall be rounded to the nearest whole dollar.

All exposure amounts shall be rounded to the nearest exposure unit. For example, if exposure units are thousands of dollars of sales and sales are \$102,321, report 102. If the exposure amount rounds to zero, report 1 (one) instead of zero.

### 16. Record Inception Date

On new and renewal policy premium transactions, the record inception date shall be the effective date of the policy.

On endorsement premium transactions that offset a previously reported transaction, the record inception date shall be identical to that reported on the original records. On endorsement transactions that reflect additional or changed codings, the record inception date may optionally be either the transaction effective date of the endorsement or the effective date of the underlying policy.

On cancellation premium transactions, the record inception date shall be identical to that reported on the transaction that is being canceled.

On reinstatement premium transactions, the record inception date may optionally be either the transaction effective date of the reinstatement or the effective date of the underlying policy.

On audit premium adjustment transactions, the record inception date shall be identical to that reported on the original deposit or provisional premium record to which the adjustment applies.

On retrospective premium adjustment transactions, the record inception date shall be identical to the original deposit or premium record to which the adjustment applies.

On all loss transactions, the record inception date shall be identical to the inception date on the premium record under which coverage was provided.

The record inception date shall define the version of the statistical plan used to code the record. The record inception date will be used by the statistical agent to determine the appropriate set of edits to verify the data.

It should be noted that all transactions associated with business prior to the effective date of this statistical plan can be reported in one of two ways.

First, the transactions may optionally be reported on a limited coded basis using a "run-off" rule described in the specific instructions. In this case, the record inception date should be any date prior to the effective date of this statistical plan. Second, the transactions may optionally be reported on a fully coded basis. In this case, the record inception date reported should be the effective date of this statistical plan or any other date subsequent.

### 17. Annual Statement Line of Business Reporting

All carriers shall report the appropriate annual statement line of business for each transaction being reported according to standard company practice. A list of valid codes is shown on Attachment 2, page 28.

### 18. Reporting of Excess Policies

In the Quarterly Liability, Quarterly Property, Quarterly Commercial Automobile, Quarterly Miscellaneous Commercial, and Quarterly Fidelity and Surety Experience Reports, excess policies shall be reported on a limited coded basis using Type of Policy Code 42.

For the purpose of this statistical plan, an excess policy means:

- (a) a policy written excess of a deductible or self insured retention of \$100,000 or more;
- (b) a policy written excess of a primary policy; and
- (c) an umbrella policy.

In the Quarterly Miscellaneous Personal Report, specific classification codes apply to excess policies.

#### 19. Corrections

If a company subsequently finds an error to previously reported and accepted data, the adjustment shall be accomplished by making a reversal of the original entry and by making a new entry showing the proper codes, premium amounts, etc. Submissions that are returned by the statistical agent as a result of exceeding the tolerance level specified in the general reporting instructions do not require offsets and onsets; rather the entire submission shall be re-reported showing the proper entries.

# **General Reporting Instructions**

This page reserved for future use.

# **General Reporting Instructions**

This page reserved for future use.

### 20. Transaction Effective and Expiration Dates

Transaction effective and expiration dates are applicable to premium transactions only and define the time over which the premium being reported is earned.

### 21. Exposure Reporting

For many of the classifications in this statistical plan, it is required that exposure be reported. The exposure base varies depending on the line of business and the classification involved. The exposure base, if any, applicable to a particular classification is defined in the appropriate section of this statistical plan. For reporting purposes, a distinction applies depending on whether the exposure base is "fixed" or "variable".

A "fixed" exposure base is one where the exposure is a fixed number at the time the policy or endorsement is written (e.g., amount of insurance, number of square feet, number of hospital beds, etc). When reporting a fixed exposure do not increase or decrease the exposure to reflect the policy term. For example, if a policy is rated based on thousands of square feet and there are 27,123 square feet; report exposure as 27 regardless of whether the policy term is 3 months, one year, three years or any other period of time.

A "variable" exposure is one where the exposure is a variable number at the time the policy or endorsement is written (e.g., gross sales, payroll, person months, etc). When reporting a variable exposure, report the exposure for the period the policy or endorsement was rated. For example, if a policy is rated based on thousands of dollars of sales and annual sales are \$1,200,000; report exposure as 1200 if the policy term is one year; report exposure as 300 if the policy term is 3 months; or report 3600 if the policy term is three years.

## 22. Schedule / IRPM Rating Modifications

Several reports require the reporting of schedule and/or IRPM modifications. These adjustments are defined to be any adjustments to premiums that are based on judgment rather than an explicit formula in the reporting company's rate manual. For liability policies, these adjustments are typically referred to as "schedule" rating modifications. For property policies, these adjustments are referred to as "IRPM" or "individual risk premium modifications."

Schedule rating and/or IRPM premium modifications shall be reported on all premium transactions. The rating modification shall reflect the composite effect of all schedule/IRPM adjustments and shall be reported as a percentage of the unmodified premium. For example, an unmodified premium shall be coded as 100. A schedule/IRPM credit of 20% shall be reported as 80 and a schedule/IRPM debit of 15% reported as 115.

Only premium modifications due to schedule/IRPM rating adjustments shall be reported. Experience rating, merit rating, package modifiers, premium discounts and other techniques based on an explicit formula in the reporting company's rate manual shall not be reported.

### 23. Changes by Endorsement

If any previously reported records are affected by a change they shall be offset and a new record(s) reported as necessary. The offset record shall be identical to the previously reported record except:

- (a) The Accounting Date shall be the date the endorsement was recorded on the company's books;
- (b) The Transaction Identifier Code shall be 15 to indicate endorsement;
- (c) The Transaction Effective Date shall be the effective date of the endorsement;
- (d) The Transaction Expiration Date shall be the expiration date of the endorsement; and,
- (e) The premium amount and exposure amount for variable exposures only shall be the unearned portion of such items and shall have the opposite sign to the previously reported record. The unearned premium amount shall be determined in a manner consistent with the terms of the policy (e.g., pro-rata or short rate). In cases where the exposure is considered "fixed", the exposure amount on the offset record shall reflect the full exposure and have the opposite sign to the previously reported record.

New records shall be reported as necessary using the codings appropriate at the time of the inception of the endorsement. The Record Inception Date shall be the effective date of the new records.

### 24. Cancellations

A cancellation shall be reported only when the entire policy is canceled. Partial cancellations are to be treated as a "change by endorsement" in the previous section. Cancellations shall be reported by coverage as a premium record. All previously reported records affected by the cancellation shall be offset. The offset records shall be identical to the previously reported records except:

- (a) The Accounting Date shall be the date the cancellation was recorded on the company's books;
- (b) The Transaction Identifier Code shall be 11, 12, or 13 depending upon the circumstances of the cancellation;
- (c) The Transaction Effective Date shall be the effective date of the cancellation; and,
- (d) The premium amount and exposure amount for variable exposures only shall be the unearned portion of such items and shall have the opposite sign to the previously reported record. The unearned premium amount shall be determined in a manner consistent with the terms of the policy (e.g., pro-rata or short rate). In cases where the exposure is considered "fixed", the exposure amount on the offset record shall reflect the full exposure and have the opposite sign to the previously reported record.

#### 25. Reinstatements

A reinstatement shall be reported as a premium record. The reinstatement record shall be identical to the cancellation offset record described in section 27 above except:

- (a) The Accounting Date shall be the date the reinstatement was recorded on the company's books;
- (b) The Transaction Identifier Code shall be 17 to indicate reinstatement;
- (c) The premium and exposure amounts shall reverse the amount on the cancellation record.
- (d) If there is a lapse in coverage associated with the reinstatement, the Transaction Effective and Transaction Expiration dates shall be revised as necessary.

#### **General Instructions - Losses**

### 26. Loss Reporting

Losses may be reported net or gross of salvage, subrogation or deductible recoveries. If losses are reported on a gross basis, salvage, subrogation or deductible recoveries shall be reported on a separate loss record with a negative loss amount. Deductible recoveries shall be reported using a transaction identifier of 51 (paid loss). Salvage and subrogation recoveries shall be reported using a transaction identifier of 55 (salvage and subrogation). See section 31 below for instructions on reporting salvage and subrogation as separate loss records.

Outstanding losses shall include case reserves only. Reserves for incurred but not reported losses (IBNR) or other "bulk" reserves shall not be included. Reporting of outstanding losses for physical damage records in the Quarterly Commercial Automobile Experience Report is optional.

#### 27. Allocated Loss Adjustment Expense Reporting

Allocated loss adjustment expenses (ALAE) shall be reported according to the definitions used by that company for annual statement reporting purposes.

For the Quarterly Property Experience Report, the Quarterly Miscellaneous Personal Experience Report, and the Quarterly Fidelity & Surety Experience Report, reporting of both paid and outstanding ALAE is optional.

Outstanding ALAE shall include case reserves only. Reserves for incurred but not reported ALAE and other "bulk" reserves shall not be included. Reporting of outstanding ALAE is optional for all reports.

#### **General Instructions - Losses**

### 28. Salvage and Subrogation Reporting

In lieu of reporting losses net of salvage and subrogation, salvage and subrogation recoveries may be reported as a separate loss record. Report the salvage and subrogation amount equal to the recovery less any expenses incurred in obtaining the recovery. Salvage and subrogation records shall be identical to the corresponding loss record except:

- (a) The Accounting Date shall be the date the salvage or subrogation was recorded on the company's books;
- (b) The Transaction Identifier Code shall be 55 to indicate salvage/subrogation; and,
- (c) The loss amount shall be the amount of salvage or subrogation recovered (net of expenses) and shall be a negative amount. If the record is a reversal of a previously reported salvage and subrogation record, the amount would be positive.

#### 29. Claim Count

Several of the quarterly experience reports require the reporting of claim counts. When claim counts are required to be reported, the company shall count and report claims in the same manner used by the company when reporting to the previous statistical agent in Texas. Use the same procedures for counting and reporting claims employed by the reporting company in effect on December 31, 1994.

For each transaction, the claim count shall be zero, one, or negative one.

For informational purposes only, following are some of the rules used by previous statistical agents for the reporting of claim counts:

a. Cases to be counted as claims must be only those in connection with which a loss payment has been made or a loss reserve established.

No case shall be counted as a claim if it involves only allocated loss adjustment expense or the cost of a bail bond.

- b. A claim closed without a loss payment shall not be counted as a claim.
- c. A claim partly paid and partly outstanding may carry the claim count either in the paid or outstanding record but must only be counted once.

#### **General Instructions - Losses**

- d. A case involving loss payments or loss reserves under more than one differently coded statistical entry shall have a claim count for each such entry.
- e. Salvage, subrogation and other recoveries (not reinsurance) shall be recorded as a credit to claim count only if the recovery is the total cost of the claim reported under that statistical entry.
- f. A claim on which more than one payment is made shall only be counted once.
- g. In the case of a loss involving two or more claims, each claim shall be counted and reported separately.
- h. A claim for bodily injury indemnity and claims for care and loss of services arising out of the same loss shall be counted as one claim.
- i. A claim for property damage indemnity and claims for loss of use arising out of the same loss shall be counted as one claim.
- j. For commercial automobile claims, no-fault claims shall be counted as claims independent of residual bodily injury claims.

#### 30. Occurrence Identifier

The Occurrence Identifier shall be a fourteen (14) digit alphanumeric string assigned by the company. The Occurrence Identifier shall uniquely define occurrences for each coverage and be sufficient for the company to locate the occurrence in its records.

### 31. Terrorism Coverage Reporting Instructions

The Terrorism Risk Insurance Act of 2002 sets forth additional options for the coverage of acts of terrorism and the reporting of premiums and losses for these acts of terrorism. The purpose of the Terrorism Coverage Code field is to separate all additional premium charged for terrorism coverage from the underlying policy premium (premium records) as well as to attribute resultant terrorism losses to the proper reporting coverage (loss records). Follow these rules when coding your data:

- Any premium charged for a loss attributable to coverage for an act of terrorism certified under the Terrorism Risk Insurance Act must be reported as a SEPARATE record using Terrorism Coverage Code "7".
- If coverage is provided under the Terrorism Risk Insurance Act at no additional premium charge, this may be indicated by either: (1) reporting Terrorism Coverage Code "3" on the underlying record(s) to represent federal certified acts coverage provided for no additional charge, or (2) reporting a record to the Stat Agent coded with a Terrorism Coverage Code "7" in full required detail with zeros reported in the premium amount field and coding the underlying premium as code "1". Any attributable certified terrorism loss for either of these scenarios would be coded with the same Terrorism Coverage Code as the associated premium record.
- Any premium charged for, or loss attributable to, a coverage for terrorism other than that which is certified under the federal program should be reported together with the underlying policy coverage (using code "1" or "3". If non-certified acts of terrorism coverage exists at no additional premium charge, all underlying records would be coded with a "1" or "3".

#### **ATTACHMENT 1**

### TRANSACTION IDENTIFIER CODES

Description	CODE
Premium Transactions	
Cancellation - Insured's Option	11

	Commercial auto physical damage	<u>212</u>
23	Fidelity	<u>230</u>
24	Surety	240
26	Burglary and theft	<u>260</u>
27	Boiler and machinery	<u>270</u>
30	Warranty	<u>300</u>
34	Aggregate write-ins for other lines of business	340

Other Liability and Excess Workers' Compensation may be optionally reported with code 170 Warranty and Aggregate write-ins may be optionally reported with code 310

See notation on Page i of this Plan regarding ISO's assertions of a copyright and proprietary interest in the underlined text.

### PLACE CODES TOWN/CITY/COUNTY (Page 1 of 24)

The five-digit series of Place Codes are constructed in such a way that the first three (3) digits identify the county in which the city or town is located. Also, for risks that are located outside a city or town, county codes are provided with the last two digits being 00. The third digit or middle number of all these codes will be an odd number except when a city or town is located in more than one county; In that event, the middle number will be the next even number (higher order) than the county's normal third digit number. Following an even third digit number will be a unique two-digit number for a given city or town, permitting the accumulation of all the data for that city or town irrespective of county location. Refer to Section 5, Place Code Reporting, in the Quarterly Property Experience Report (Page B-3) and Section 6 in the Quarterly Businessowners Experience Report (Page C-3) for further information.

### **Quarterly Liability Experience Report**

### **Specific Instructions**

### **Specific Instructions - Premiums and Losses**

### 1. Report Description

Every Company licensed in Texas with direct commercial liability premium or loss experience in Texas shall quarterly submit this report of premium, loss and loss adjustment expense experience.

### 2. Definition of Liability Business

For the purposes of the Liability Experience Report, "liability" business falls into one of three categories: medical professional liability, other professional liability, and other liability. For all reporting companies, these categories together, shall include all commercial liability business reported on lines 5.2, 11, 17.1, 17.2, 17.3, 18, 30 and 34 of the Annual Statement, Texas Page 14 except:

- Experience of property/liability package policies with indivisible premiums;
- Experience of businessowner policies and similar property/liability package policies sold to small businesses regardless of whether the premium is divisible or indivisible;
- Experience of any miscellaneous non-liability business reported in annual statement line 5.2 (e.g., inland marine, boiler & machinery, etc.); and
- Experience of personal liability policies.

#### Specific Instructions - Premiums and Losses

#### Definition of Medical Professional Liability

Medical Professional Liability business consists of policies providing professional liability coverage to medical professionals, hospitals and related businesses and institutions.

For divisible premium package policies, only the medical professional liability portion of experience shall be reported as "Medical Professional Liability."

Property/liability package policies with indivisible premiums shall not be reported as "Medical Professional Liability" unless the company has estimated the property component to be less than 50% of the total premium.

#### Definition of Other Professional Liability

Other Professional Liability business consists of policies providing professional liability coverage to professionals, and related businesses and institutions in fields other than medicine.

For divisible premium package policies, only the other than medical professional liability portion of experience shall be reported as "Other Professional Liability."

Property/liability package policies with indivisible premiums shall not be reported as "Other Professional Liability" unless the company has estimated the property component to be less than 50% of the total premium.

### Definition of Other Liability

Other Liability consists of all commercial liability business reported on lines 5.2, 17.1, 17.2, 17.3, 18, 30 and 34 of the Annual Statement Texas Page 14 except:

- Experience reported as Medical Professional Liability or Other Professional Liability as defined above;
- Experience of property/liability package policies with indivisible premiums;
- Experience of businessowner policies and similar property/liability package policies sold to small businesses regardless of whether the premium is divisible or not;
- Experience of any miscellaneous non-liability business reported in annual statement line 5.2 (e.g., inland marine, boiler & machinery, etc.); and
- Experience of personal liability policies.

#### **Specific Instructions - Premiums and Losses**

#### 3. Deductible Reporting

Report deductible amounts for both premium and loss transactions.

#### Deductibles -- Premium Transactions

Report the per occurrence deductible for the coverage being reported in dollars. For example, report a \$50 deductible as 50 and \$100 deductible as 100. If the deductible is not a fixed dollar amount, but instead determined on a per claim, percentage of loss, or other basis, report 1 (one). If the company captures deductibles by ranges, report the midpoint of the range. If there is no deductible, report zero.

For transactions containing multiple coverages and multiple deductibles, report the deductible applicable to the major coverage provided.

#### Deductibles -- Loss Transactions

Report the deductible applicable to the occurrence being reported. If the deductible is not a fixed dollar amount, but instead determined on a per claim, percentage of loss, or other basis, report the actual dollar amount of the deductible. If there is no deductible, report zero.

#### 4. Sublines and Classifications

Subline codes shall be reported to broadly indicate the kind of coverage provided. Classification codes shall be reported to provide information on the type of exposure. Valid subline codes are shown on Attachment A-2 (page A-36). Valid classification codes are shown for each subline on Attachments A-6 through A-14 (pages A-47 through A-104).

The classification codes required to be reported for each subline represent consolidations of the classification codes used in the previous statistical plan. Companies may, at their option, continue to report experience using the previous classification codes. In such cases the statistical agent shall consolidate the classifications.

Companies that offer programs for businesses that are not classified should notify the Texas Department of Insurance of the types of businesses involved so that additional codes may be added as necessary.

# 5. Type of Coverage Codes

A Type of Coverage Code shall be reported indicating if the policy is on a Claims Made, Occurrence or Other basis. Claims Made Policies shall be identified as being "regular" or "tail".

A "regular" claims-made policy is one that provides coverage for all claims reported during the policy period with occurrence dates on or after the entry into claims made date.

A "tail" claims-made policy is one that provides coverage to a policyholder who has left a "regular" claims made program; for all claims occurring on or after the entry into claims made date but which are reported after the last "regular" claims made policy has expired.

# 6. Entry into Claims Made Date

For claims-made policies the entry into claims made date shall be reported. This date is the earliest accident date coverage is provided under a claims-made policy. In most cases this date will be the date the insured first entered the claims made program. For policies that provide unlimited retroactive coverage, the entry into claims made date shall be reported as zero.

For other than claims-made policies, the entry into claims made date shall be reported as zero.

# 7. Policies Covering Multiple Classifications (Composite Policies)

Many policies provide liability coverage for multiple classifications. For the purposes of this statistical plan such policies shall be referred to as composite policies. Experience of such policies shall be reported as follows:

- If the policy has divisible liability premium, separate transactions shall be reported for each classification under the appropriate subline codes.
- If the policy has indivisible liability premium, the combined experience shall be reported under subline codes 344 or 342 using special classifications codes for composite policies. See Attachment A-14, page 104, for a listing of valid classification codes for composite policies. (It is noted that these classifications may be reported on a limited coded basis. See Section 9, page A-7 for a list of the required data elements for limited coded records.)

# 8. Policy Limits

There are two fields for policy limits -- Policy Limit Per Occurrence and Aggregate Policy Limit -- for both premium and loss transactions. There are some differences in reporting between premium and loss transactions.

#### Policy Limits -- Premium Transactions

Report the Policy Limit Per Occurrence and Aggregate Policy Limit provided by the policy in thousands of dollars. For example, report \$20,000 as 20 and \$100,000 as 100. Limits under \$1,000 shall be reported as 1(one).

For transactions containing multiple coverages and multiple sets of policy limits, report the policy limits applicable to the major coverage provided. For example, on combined bodily injury and property damage liability transactions with split limits, report only the bodily injury limits.

If the Policy Limit Per Occurrence is the same as the Aggregate Policy Limit, report this amount in both fields. If there is a Policy Limit per Occurrence but no Aggregate Policy Limit, report 99999999 in the Aggregate Limit field. If there is no Policy Limit per Occurrence report the aggregate limit in both the occurrence and aggregate limit fields.

#### Policy Limits -- Loss Transactions

Report the Policy Limit Per Occurrence and Aggregate Policy Limit applicable to the type of loss being reported in thousands of dollars. If the policy limit is less than \$1,000, report 1 (one).

If the Policy Limit Per Occurrence is the same as the Aggregate Policy Limit, report this amount in both fields. If there is a Policy Limit per Occurrence but no Aggregate Policy Limit, report 99999999 in the Aggregate Policy Limit field. If there is no Policy Limit per Occurrence report the aggregate limit in both the occurrence and aggregate limit fields.

# 9. Limited Reporting

Premium and loss transactions for certain classifications may be reported on a limited coded basis. These classifications include minimum premiums, provisional or deposit premiums for audited risks, adjustments to retrospectively rated risks, composite rated risks, classifications subject to the run-off reporting rule (see section 10, page A-9), and other classifications specifically identified as limited coded on Attachments A-6 through A-14. For limited reporting records, the following data elements only are required to be reported. At the reporting company's option, the other elements shall be reported zero or with entries consistent with the instructions.

## Premium Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Terrorism Coverage Code
- Subline
- Type of Coverage
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Transaction Effective Date
- Transaction Expiration Date
- Direct Written Premium

#### Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Terrorism Coverage Code
- Subline
- Type of Coverage
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Aggregate Policy Limit
- Policy Limit Per Occurrence
- Policy Deductible
- Occurrence Date
- Type of Loss
- Claim Count
- Loss Amount
- Occurrence Identifier
- Report Date

If a reporting company desires to report other types of business not specifically identified using limited coding, they should contact the Texas Department of Insurance for further instructions.

#### 10. **Run-Off Reporting Rule**

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, retrospective and audit premium adjustments, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For the purposes of the Quarterly Liability Experience Report, run-off business falls into one of five categories: Medical Professional Business written prior to 1979; Pre-CSP Business written prior to January 1, 1995, Non-Simplified General Liability Business written prior to January 1, 1995; Simplified General Liability Business written prior to January 1, 1995; and all other liability business where the initial premium transaction record was reported prior to January 1, 1995.

For editing purposes, the record inception date reported on all run-off business shall be the inception date originally reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

#### Medical Professional Business written prior to 1979

For the purposes of reporting of "old" medical professional business, companies may choose one of the following options:

- 1. Exclude the experience of "old" medical professional business from unit transaction reporting under this statistical plan and report the experience as a reconciliation item to the annual statement, page 14, on an annual basis.
- 2. Alternatively, companies may desire to continue to report this "old" business on a unit transaction basis subject to very limited reporting.

If this is done, subsequent paid and outstanding loss transactions on "old" medical professional business shall include the following data elements <u>only</u>. Other elements may, at the company's option, be reported zero or else with entries consistent with the instructions.

#### Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Subline (use code 325 other)
- Annual Statement Line of Business
- Classification (use code 99996, see Attachment A-13, page A-103)
- Record Inception Date
- Policy Identifier
- Occurrence Date
- Loss Amount
- Occurrence Identifier

#### Pre-CSP Business written prior to January 1, 1995

For the purposes of reporting pre-CSP business, companies may choose one of the following options:

- 1. Exclude the experience of pre-CSP business from unit transaction reporting under this statistical plan and report the experience as a reconciliation item to the annual statement, page 14, on an annual basis.
- 2. Alternatively, companies may desire to continue to report this business on a unit transaction basis subject to very limited reporting.

If this is done, subsequent paid and outstanding loss transactions on pre-CSP business shall include the following data elements <u>only</u>. Other elements may, at the company's option, be reported zero or else with entries consistent with the instructions.

#### Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Subline (use code 325 other)
- Annual Statement Line of Business
- Classification (use code 99991, see Attachment A-13, page A-103)
- Record Inception Date
- Policy Identifier
- Occurrence Date
- Loss Amount
- Occurrence Identifier

# Non-Simplified General Liability Business written prior to January 1, 1995

All subsequent premium and loss transactions on non-simplified business shall be reported on a limited coded basis using classification code 99997 (see Attachment A-8, page A-98). See section 9, page A-7, for a list of the elements required to be reported on limited coded transactions.

Non-simplified subline codes shall be converted and matched with the subline codes promulgated in this statistical plan (see Attachment A-2, page A-36). I.E., "old" subline code 314 should be reported as "new" subline code 334, etc.

# Simplified General Liability Business written prior to January 1, 1995

All subsequent premium and loss transactions on simplified business written prior to January 1, 1995 shall be reported in the detail required by this statistical plan, with the following exceptions:

Certain elements, identified in the field definitions as being subject to the run-off reporting rule, may, at the company's option, be reported zero, or else with entries consistent with the instructions.

The original classification codes shall continue to be reported on simplified general liability business. It is recognized that there may be certain instances where the original classification code is not promulgated by this statistical plan; in these cases carriers should continue to report the original classification code on the run-off business. The statistical agent shall consolidate the classifications.

#### All Other Business Written Prior to January 1, 1995

All subsequent premium and loss transactions on any other business not specifically defined above where the original premium transaction was reported prior to January 1, 1995, shall be reported in the detail required by this statistical plan, with the following exceptions:

Certain elements, identified in the field definitions as being subject to the run-off reporting rule, may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For sublines 317 and 332 (professional liability and liquor liability), classification codes on run-off transactions should be coded in the detail required by this plan. If this is not possible, run-off business may alternatively be coded using the appropriate "other" codes shown on Attachments A-7 and A-10.

# **Specific Instructions - Premiums**

# 11. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium, or else the additional premium may be limited coded using class code 99999 (see Attachment A-13, page A-103). See section 9, limited reporting, page A-7, for a listing of the elements required to be reported on limited coded transactions.

## 12. Exposure Reporting

Exposures shall be reported for each classification. For policies where the exposure base is a fixed number at the time a policy or endorsement is written (e.g., number of square feet, number of hospital beds) report the number. Do not reduce or increase the number to reflect the policy term. For example, if a policy is rated based on thousands of square feet and there are 27,123 square feet; report exposure as 27 regardless of whether the policy term is 3 months, one year, three years or any other period of time.

For policies where the exposure base is a variable number at the time a policy or endorsement is written (e.g., gross sales, payroll) report the number for the period the policy or endorsement was rated. For example, if a policy is rated based on thousands of dollars of sales and annual sales are \$1,200,000; report exposure as 1200 if the policy term is one year; report exposure as 300 if the policy term is 3 months; or report 3600 if the policy term is three years. If there is no exposure, report zero.

Attachment A-5 (pages A-43 through A-45) provides a summary of valid exposure bases, their reporting basis and indicates if exposure units are to be considered fixed or variable.

## **Specific Instructions - Premiums**

# 13. Premium Audit Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

The provisional or deposit premium shall wherever possible be coded in detail to the appropriate classification. When this is not possible provisional or deposit premium may be limited coded using class code 99998 (see Attachment A-13, page A-103). In the latter case, the limited coded record shall subsequently be reversed using transaction code 29 and replaced with detail coded information as it becomes available from audits. The premium amount on the deposit / provisional premium record shall be the amount of premium recorded by the reporting company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Audit adjustments shall be reported using the audit adjustment transaction code (16) and shall be reported in detail. The audit adjustment transaction record shall have the same codes as previously reported on the provisional or deposit premium transaction record except:

- (a) The accounting date shall be the date the adjustment was recorded on the company's books.
- (b) The premium and exposure amounts shall reflect the audit adjustment.

See section 9, limited reporting, (page A-7) for the applicable elements required to be reported on a limited reporting transaction.

# **Specific Instructions - Premiums**

# 14. Premium Retrospective Rating Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Retrospective adjustments to the provisional or deposit premium shall be reported using the retrospective adjustment transaction code (20). Wherever possible such adjustments shall be coded to the appropriate classification, coverage etc. When this is not possible premium adjustments may be limited coded using class code 99995 (see Attachment A-13, page A-103).

See section 9, limited reporting, (page A-7) for the applicable elements required to be reported on a limited code transaction.

# **Quarterly Liability Experience Report**

This page reserved for future use.

# **Specific Instructions - Losses**

#### 15. **Report Date**

For claims made policies the report date of the claim shall be reported. For other types of coverages the report date may be reported or else, at the Company's option reported zero.

The report date for claims made coverage shall be determined according to the definitions used to trigger coverage.

- Plan Code (Numeric Field: Positions 1-2)
  Report 01 to indicate Quarterly Liability Experience
  Report.
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)
  For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See Section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19)
  Indicate the type of policy. Valid codes are shown on Attachment A-1 (page A-35).

The Run-Off Reporting Rule (see section 10, page A-9) is applicable to this element.

#### **Quarterly Liability Experience Report**

Terrorism Coverage Code\* (Numeric Field: Position 20) Underlying Policy (Applicable to Sublines 325, 334-336, 342 (includes ISO Sublines 342 and 343), 344 and 350)

Is coverage for certified acts of terrorism included in the underlying Code policy at no additional premium?

1 N (no)
3 Y (yes)

Terrorism Coverage\*\*
(Applicable to all Sublines)

Code Coverage provided for acts of terrorism certified under the Terrorism Risk Insurance Act\*\*\*.

- \* Certified Acts of Terrorism coverage refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify premiums associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following reporting instructions and placing zeros in the premium amount field(s) on the record.
- Reserved (Positions 21-22)
  Report blank.
- <u>Subline (Numeric Field: Positions 23-25)</u>
  Report the Subline Code. Valid Codes are shown on Attachment A-2 (page A-36).
- Type of Coverage (Numeric Field: Position 26)
  Indicate the type of coverage provided:

Code	Type of Coverage
1	Claims Made (Regular)
2	Claims Made (Tail)
3	Occurrence
9	Other

## **Record Layout and Field Definitions – Premium Transactions**

Coverage Code (Numeric Field: Position 27) Indicate the Coverage Code:

Code	Coverage
1	Bodily Injury Liability
2	Property Damage Liability
3	Bodily Injury and Property Damage Liability
	Split Limits (Indivisible Premium)
4	Bodily Injury and Property Damage Liability
	Single Limit (Indivisible Premium)
9	Other, including professional liability

This field is optional for limited coded transactions.

Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

Territory (Numeric Field: Positions 31-32) For sublines 210, 220, 230, 240, 317, 332, and 334, report the two-digit territory code based on the location of the risk. For transactions involving multiple territories, report zero. Valid codes are shown on Attachment A-3 (pages A-37 through A-40).

For other sublines, report zero.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

- Classification (Numeric Field: Positions 33-37) Report the five digit classification code. Valid codes are shown on Attachments A-6 through A-14 (pages A-47 through A-104).
- Reserved (Positions 38-57) Report blank.
- Record Inception date (Numeric Field: Positions 58-61) Report the inception date in YYMM format.
- Reserved (Positions 62-65) Report blank.

# **Record Layout and Field Definitions – Premium Transactions**

- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Aggregate Policy Limit (Numeric Field: Positions 80-87)
  Report the aggregate policy limit for the coverage being reported rounded to the nearest thousands of dollars. For example, report \$300,000 as 300 and \$1,000,000 as 1000.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

• Policy Limit Per Occurrence (Numeric Field: Positions 88-95)

Report the per occurrence limit for the coverage being reported rounded to the nearest thousands of dollars. For example, report \$300,000 as 300 and \$1,000,000 as 1000.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 96-99)
  Report blank.
- Entry into Claims Made Date (Numeric Field: Positions 100-103)

For "regular" and "tail" claims made policies report the entry into claims made date in YYMM format. For other types of policies report zero.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

• Reserved (Positions 104-112)
Report blank.

• Policy Deductible Per Occurrence (Numeric Field: Positions 113-118)

Report the per occurrence deductible for the coverage being reported rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If no deductible applies, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one).

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 119-123)
  Report blank.
- Transaction Effective Date (Numeric Field: Positions 124-129)

Report the transaction effective date in YYMMDD format. Run-Off business as defined in section 10 (page A-9) may optionally be reported in YYMM00 format.

• <u>Transaction Expiration Date (Numeric Field: Positions 130-135)</u>

Report the transaction expiration date in YYMMDD format. Run-Off business as defined in section 10 (page A-9) may optionally be reported in YYMM00 format.

- <u>Direct Written Premium (Numeric Field: Positions 136-145)</u> Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-148)
  Report blank.
- Exposure (Numeric Field: Positions 149-158)

  Report the exposure associated with the classification being reported, as indicated on Attachment A-5 (pages A-43 through A-45). Report zero if there is no exposure.

This field is optional for limited coded transactions.

• Reserved (Positions 159-161)
Report blank.

• Schedule Rating Modification (Numeric Field: Positions 162-164)

Report the schedule rating adjustment used to rate the coverage. See section 25 (page 20) of the general reporting instructions for further instructions.

The Run-Off Reporting Rule (see section 10, page A-9) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 165-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

- Plan Code (Numeric Field: Positions 1-2) Report 01 to indicate Quarterly Liability Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7) Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10) For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14) Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15) Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17) Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19) Indicate the type of policy. Valid codes are shown on Attachment A-1 (page A-35).

The Run-Off Reporting Rule (see section 10, page A-9) is applicable to this element.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

Terrorism Coverage Code\* (Numeric Field: Position 20) Underlying Policy (Applicable to Sublines 325, 334-336, 342(includes ISO Sublines 342 and 343), 344 and 350)

> Is coverage for certified acts of terrorism included in the underlying policy at no additional premium? Code N (no) Y (yes)

Terrorism Coverage\*\* (Applicable to all Sublines)

> Coverage provided for acts of Code terrorism certified under the 7 Terrorism Risk Insurance Act\*\*\*.

- Certified Acts of Terrorism coverage refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- A separate record is required to identify losses associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following reporting instructions and placing zeros in the premium amount field(s) on the record.
- Reserved (Positions 21-22) Report blank.
- Subline (Numeric Field: Positions 23-25) Report the Subline Code. Valid Codes are shown on Attachment A-2 (page A-36).

• Type of Coverage (Numeric Field: Position 26)

Indicate	the type of coverage provided:
Code	Type of Coverage
1	Claims Made (Regular)
2	Claims Made (Tail)
3	Occurrence
9	Other

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

• Coverage Code (Numeric Field: Position 27)

Indicate the Coverage Code:

Code	Coverage
1	Bodily Injury Liability
2	Property Damage Liability
3	Bodily Injury and Property Damage Liability
	Split Limits (Indivisible Premium)
4	Bodily Injury and Property Damage Liability
	Single Limit (Indivisible Premium)
9	Other, including professional liability

This field is optional for limited coded transactions.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

• <u>Annual Statement Line of Business (Numeric Field: Positions 28-30)</u>

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

• Territory (Numeric Field: Positions 31-32)
For sublines 210, 220, 230, 240, 317, 332, and 334, report the two-digit territory code based on the location of the risk. For transactions involving multiple territories, report zero. Valid codes are shown on Attachment A-3 (pages A-37 through A-40).

For other sublines, report zero.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

- Classification (Numeric Field: Positions 33-37)
  Report the five digit classification code. Valid codes are shown on Attachments A-6 through A-14 (pages A-47 through A-104).
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- <u>Policy Identifier (Alphanumeric Field: Positions 66-79)</u>
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Aggregate Policy Limit (Numeric Field: Positions 80-87)
  Report the aggregate policy limit for the coverage being reported rounded to the nearest thousands of dollars. For example, report \$300,000 as 300 and \$1,000,000 as 1000.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

• Policy Limit Per Occurrence (Numeric Field: Positions 88-95)

Report the per occurrence limit for the coverage being reported rounded to the nearest thousands of dollars. For example, report \$300,000 as 300 and \$1,000,000 as 1000.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

• Reserved (Positions 96-99)
Report blank.

• Entry into Claims Made Date (Numeric Field: Positions 100-103)

For "regular" and "tail" claims made policies report the entry into claims made date in YYMM format. For other types of policies report zero.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for limited coded transactions.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

- Reserved (Positions 104-112)
  Report blank.
- Policy Deductible (Numeric Field: Positions 113-118)
  Report the deductible applicable to the occurrence being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If no deductible applies, report zero.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

- Reserved (Positions 119-176)
  Report blank.
- Occurrence Date (Numeric Field: Positions 177-182)

  Report the date on which the loss occurred in YYMMDD format. Run-Off business as defined in section 10 (page A-9) may optionally be reported in YYMM00 format.
- Reserved (Positions 183-185)
  Report blank.

• Type of Loss (Numeric Field: Positions 186-187)
Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment A-4 (page A-41).

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

• <u>Claim Count(Numeric Field: Positions 188-189)</u> Report the claim count.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, paid ALAE,
  outstanding ALAE, or salvage and subrogation amount
  consistent with the Transaction Identifier.
- Occurrence Identifier (Alphanumeric Field: Positions 199-212)
  Report the occurrence identifier.
- Reserved (Positions 213-218)
  Report blank.
- Report Date (Numeric Field: Positions 219-224)
  Report the date on which the loss was reported in YYMMDD format. Run-Off business as defined in section 10 (page A-9) may optionally be reported in YYMM00 format.

The Run-Off Reporting Rule, (see section 10, page A-9), is applicable to this element.

This field is optional for reporting of "old" medical professional business (see section 10, page A-9).

- Reserved (Positions 225-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

\*Note: Companies may opt to report experience for the cities of Dallas, Fort Worth, Houston and San Antonio (i.e. the major cities) either based on County or City Limits. However, once selected, the method of reporting shall apply uniformly to all risks.

If a Company opts to report by County, the territory codes shall be determined based on the County codes above and the location of the risk. For example, a risk located within five miles of the Dallas City limits but located outside Dallas or Tarrant Counties would be reported under territory 14.

If a company opts to report based on the major cities, all risks located within five miles of the City limits shall be reported in territories 01 through 04 as appropriate. For example, all risks located within five miles of Dallas City limits would be reported as Dallas (01). This might include some risks located in counties other than Dallas County. Similarly, risks located in Dallas County but more than five miles outside the City limit would be reported in territory 14.

#### NOTE:

The following information applies to all Medical Professional Liability codes.

#### **Definition of No Surgery**

No surgery other than incision of boils and superficial abscesses, suturing of skin and superficial fascia, closed reduction of fractures, needle biopsies, infant circumcision and similar minor procedures encountered in a normal family practice.

#### **Definition of Minor Surgery**

Excludes major surgery. Includes assisting in major surgery.

#### Definition of Major Surgery

Includes operations in or upon any body cavity, including but not limited to the cranium, thorax, abdomen, or pelvis; any other operation which, because of the condition of the patient or the length or circumstances of the operation presents a distinct hazard to life. It also includes: removal of tumors, open bone fractures, amputations, abortions, caesarian sections, tonsillectomies, adenoidectomies, the removal of any gland or organ, plastic surgery, and any operation done using general anesthesia.

### **Quarterly Property Experience Report**

### **Specific Instructions**

### **Specific Instructions - Premiums and Losses**

### 1. Report Description

Every Company licensed in Texas with direct commercial property premium or loss experience in Texas shall quarterly submit this report of premium, loss and loss adjustment expense experience.

### 2. Definition of Commercial Property

For the purposes of this report, "commercial property" business includes all business reported on lines 1, 2.1, 3 and 5.1 of the Annual Statement, Texas Page 14 and all commercial property reported on line 30 and 34 of the Annual Statement, Texas Page 14, except:

- Experience of property/liability package policies with indivisible premiums;
- Experience of businessowner policies and similar property/liability package policies sold to small businesses regardless of whether the premium is divisible or indivisible;
- Experience of any miscellaneous non-property business reported in annual statement line 5.1 (e.g., boiler & machinery liability, etc.); and
- Experience that is reported by the company under the Texas Statistical Plan for Residential Risks;

#### 3. Sublines and Classifications

Subline codes shall be reported to broadly indicate the kind of coverage provided. Classification codes shall be reported to indicate the business of the policyholder. Valid subline codes are shown on Attachment B-2 (page B-32). Valid classification codes are shown on Attachment B-6 (pages B-41 through B-54).

Companies that offer programs for businesses that are not classified should notify the Texas Department of Insurance of the types of business involved so that additional codes may be added as necessary.

### **Specific Instructions - Premiums and Losses**

#### 4. **ZIP Code Reporting**

Report the ZIP code location of the building insured or the building containing the insured's property.

For multi-location risks that cannot be separately reported, the ZIP code field shall be reported as zero.

There are two ZIP Code fields -- Five Digit ZIP code and Plus-Four ZIP extension. Five digit ZIP Code reporting is required, but Plus-Four ZIP reporting is optional.

Five digit ZIP code reporting is required on all transactions on all new and renewal policies

## 5. Place Code Reporting

Reporting of a three digit place code (county identifier) is required in addition to the requirement of ZIP codes specified in Section 4. The last two digits of the place code may optionally be reported zero or with a code consistent with the transaction being reported.

Valid five digit place codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 29. Valid three digit place codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 51.

When five digit place codes are required to be reported, the full five digits shall be used whenever the location of the risk being rated can be identified as being within a particular town or city. For risks which do not fall within the limits of a town or city, a three digit place code should be used to identify the *county* in which the risk is located, and the last two digits shall be reported zero.

#### 6. Blanket Rated Risks

Whenever possible, experience for blanket rated risks shall be reported in the detail required by this statistical plan. This will occur, for example, if the policy has been rated based on "statement of values". In such situations, a Rating Identification Code of 8 shall be reported to indicate a blanket rated policy. The exposure to be reported for each item of property subject to blanket rating shall be calculated by prorating the exposure for the entire policy based on the exposure of each item. Similarly, the premium to be reported for each item of property shall be calculated by prorating the policy premium based on the company's filed rates and exposure of each item. These calculations shall be performed separately for each coverage.

When it is not possible to report the experience for blanket rated risks according to the specific elements set forth in this statistical plan, experience may be reported under the blanket rated classifications listed on Attachment B-6, page B-54. See section 7, limited reporting, page B-5, for a listing of the elements required to be reported on limited coded transactions.

## 7. Limited Reporting

Premium and loss transactions for certain classifications may be reported on a limited coded basis. These classifications include minimum premiums, blanket rated risks, classifications subject to the run-off reporting rule (see section 8, page B-7), highly protected risks, excess and umbrella policies, and other classifications specifically identified as limited coded on Attachment B-6. For limited reporting records, the following data elements only are required to be reported. At the reporting company's option, the other elements shall be reported zero or with entries consistent with the instructions.

#### Premium Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Terrorism Coverage Code
- Subline Code
- Coverage Code
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Transaction Effective Date
- Transaction Expiration Date
- Direct Written Premium

#### Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Terrorism Coverage Code
- Subline Code
- Coverage Code
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Deductible
- Occurrence Date
- Type of Loss
- Loss Amount
- Occurrence Identifier

If a reporting company desires to report other types of business using limited coding, they should contact the Texas Department of Insurance for further instructions.

#### 8. Run-Off Reporting Rule

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For run-off transactions, certain elements as identified in the field definitions may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For run-off transactions, the classification codes should, whenever possible, be reported in the detail otherwise required by this plan. This will include almost all situations. In the rare instances where the prior classification code cannot be matched with a classification code currently contained in this plan, the company shall report this run-off business under a "special" run-off classification code of 99997. See Attachment B-6 page B-54.

Subline codes reported on run-off transactions shall be converted and matched to the codes promulgated in this plan. Specifically, run-off transactions shall be reported using the following subline codes  $\underline{only}$  as appropriate (see Attachment B-2, page B-32):

Code	Description
009	Other - Fire coverages
019	Other - Allied coverages

Coverage codes reported on run-off transactions shall be converted and matched to the codes promulgated in this statistical plan (see Attachment B-3, page B-33).

For editing purposes, the record inception date reported on all run-off business shall be the inception date <u>originally</u> reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

Carriers that are unclear as to whether they should use the "special" run-off classification code in any specific instance should contact the Texas Department of Insurance.

### 9. Deductible Reporting

Report deductible amounts for both premium and loss transactions.

#### Deductibles -- Premium Transactions

The deductible applying to fire and windstorm losses to buildings and business personal property shall be separately reported. The fire deductible shall be reported in the "fire deductible" field and the windstorm deductible in the "windstorm deductible" field. The windstorm deductible shall only be reported for allied lines coverages and the fire deductible shall only be reported for fire coverages. For fire coverages, the windstorm deductible field shall be reported zero. Similarly, for allied lines coverages, the fire deductible field shall be reported zero.

Deductibles shall be reported as a dollar amount. For example, report a \$250 deductible as 250. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one). If the company captures deductibles by ranges, report the midpoint of the range. If there is no deductible or if the coverage is not offered (e.g., windstorm exclusion), report zero.

For transactions containing multiple coverages and multiple deductibles, report the deductible applicable to the major coverage provided.

#### Deductibles -- Loss Transactions

The single deductible applicable to the occurrence being reported shall be reported in the "policy deductible" field. If the deductible is not a fixed dollar amount, but determined as a percentage of loss or by some other basis, report the actual dollar amount of the deductible. If there is no deductible, report zero.

## **Quarterly Property Experience Report**

## **Quarterly Property Experience Report**

### **Specific Instructions - Premiums**

## 10. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium, or else the additional premium may be limited coded using class code 99999 (see Attachment B-6, page B-54). See section 7, limited reporting, page B-5, for a listing of the elements required to be reported on limited coded transactions.

#### 11. Exposure Reporting

For building and business personal property coverages, exposure is defined to be the amount of insurance. For time element coverages exposure is defined as the policy limit.

Exposure shall be reported for time element coverages for all policies.

If there is no exposure, report zero.

## **Quarterly Property Experience Report**

## **Specific Instructions - Losses**

#### 12. **Type of Loss Reporting**

The type of loss codes shall reflect the original and proximate cause of loss and not any ensuing causes. For example, if a tornado damages the roof of a building and rain subsequently enters the building through the roof causing further damage, all losses shall be coded as "wind & hail" and not water damage. Similarly, if cold weather causes a pipe to freeze which then bursts and causes damage, all losses shall be coded as "freeze."

Type of loss codes are shown on Attachment B-5, page B-40.

- Plan Code (Numeric Field: Positions 1-2) Report 02 to indicate Quarterly Commercial Property Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7) Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10) For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14) Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15) Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17) Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19) Indicate the type of policy. Valid codes are shown on Attachment B-1 (page B-31).
- Rating Identification Code (Numeric Field: Position 20) Report the rating identification code. Valid codes are: Description Code

, advisory
ı

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

• Terrorism Coverage Code\* (Numeric Field: Position 21)
Underlying Policy

(Applicable to Subline 001, 011, 012, 016 and 017)

(Applicable to Subline 001, 011, 012, 016 and 017)

Is coverage for certified acts of terrorism included in the underlying policy at no additional premium?
N (no)
Y (yes)

Terrorism Coverage\*\*

Code 1

3

(Applicable to all Sublines)

Code Coverage provided for acts of terrorism certified under the Terrorism Risk Insurance Act\*\*\*.

- \* Certified Acts of Terrorism coverage refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify premiums associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk
  Insurance Act for no additional premium may report this
  coverage by following reporting instructions and placing
  zeros in the premium amount field(s) on the record. For
  a Standard Fire Policy, premium charged for statutory
  fire following coverage for certified acts of terrorism
  in situations where an insured rejected full certified
  acts coverage should also be separately reported.
- <u>Reserved (Position 22)</u> Report blank.
- Subline Code (Numeric Field: Positions 23-25)
  Indicate the perils covered using the appropriate subline code. Valid codes are shown on Attachment B-2 (page B-32).
- Coverage Code (Numeric Field: Positions 26-27)
  Indicate the kind of coverage provided using the appropriate coverage code. Valid codes are shown on Attachment B-3 (page B-33).

Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Reserved (Positions 31-32) Report blank.
- Classification (Numeric Field: Positions 33-37) Report the classification code. Valid codes are shown on Attachment B-6 (pages B-41 through B-54).
- Sprinkler Indicator(Numeric Field: Position 38) Report 1 to indicate a sprinklered risk. Otherwise report 0.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

Five-Digit Zip Code (Numeric Field: Positions 39-43) Report the applicable five-digit ZIP code of the location of the insured premises. See section 4 (page B-2) for more detailed instructions.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

Plus-Four Zip Code (Numeric Field: Positions 44-47) Report the applicable plus-four ZIP code of the location of the insured premises. At the present time this field is optional and carriers may report zero. See section 4 (page B-2) for more detailed instructions.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

Place Code (Numeric Field: Positions 48-52) Report the applicable place code. Valid codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 29. Refer to section 5, page B-3 for specific reporting instructions.

This field is optional for limited coded transactions.

• <u>Construction Code (Numeric Field: Position 53)</u>
Report the applicable construction code. Valid codes are shown on Attachment B-4 (pages B-35 through B-39).

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 54-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-112)
  Report blank.
- Fire Deductible (Numeric Field: Positions 113-118)
  For fire risks, report the deductible applicable to fire losses for the coverage being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, or if the coverage is not offered, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one).

For allied lines risks, report zero.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 119-123)
  Report blank.
- Transaction Effective Date (Numeric Field: Positions 124- 129)

Report the transaction effective date in YYMMDD format. Run-off business, as defined in section 7, page B-5, may optionally be reported in YYMM00 format.

Transaction Expiration Date (Numeric Field: Positions 130-135)

Report the transaction expiration date in YYMMDD format. Run-off business, as defined in section 7, page B-5, may optionally be reported in YYMM00 format.

- Direct Written Premium (Numeric Field: Positions 136-145) Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-148) Report blank.
- Exposure (Numeric Field: Positions 149-158) Report the exposure in thousands of dollars

Exposure shall be reported for all time element coverages.

This field is optional for limited coded transactions.

- Reserved (Positions 159-161) Report blank.
- Individual Risk Rating Modification (Numeric Field: Positions 162-164)

Report the individual risk rating modification used to rate the coverage. See section 25 (page 20) of the general reporting instructions for further instructions.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

Reserved (Positions 165-170) Report blank.

• Windstorm Deductible (Numeric Field: Positions 171-176)
For allied lines risks, report the deductible applicable to windstorm losses for the coverage being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, or if the coverage is not offered, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one).

For fire risks, report zero.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 177-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

- Plan Code (Numeric Field: Positions 1-2)
  Report 02 to indicate Quarterly Commercial Property
  Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)
  For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19)
  Indicate the type of policy. Valid codes are shown on Attachment B-1 (page B-31).
- Rating Identification Code (Numeric Field: Position 20)
  Report the rating identification code. Valid codes are:

_	
Code	Description
1	Rate based on TDI inspection
2	Rate based on third party (e.g., advisory
	organization) inspection
3	Rate based on company inspection
4	Class rated
8	Blanket rated
9	Other

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

• Terrorism Coverage Code\* (Numeric Field: Position 21)
Underlying Policy

(Applicable to Subline 001, 011, 012, 016 and 017)

Is coverage for certified acts of terrorism included in the underlying policy at no additional premium?

1 N (no) 3 Y (yes)

Terrorism Coverage\*\*

Code

(Applicable to all Sublines)

Code Coverage provided for acts of Terrorism certified under the Terrorism Risk Insurance Act\*\*\*.

- \* Certified Acts of Terrorism coverage refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify losses associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk
  Insurance Act for no additional premium may report this
  coverage by following reporting instructions and placing
  zeros in the premium amount field(s) on the record. For a
  Standard Fire Policy, premium charged for statutory fire
  following coverage for certified acts of terrorism in
  situations where an insured rejected full certified acts
  coverage should also be separately reported.

Reserved (Position 22) Report blank.

- <u>Subline Code (Numeric Field: Positions 23-25)</u>
  Indicate the perils covered using the appropriate subline code. Valid codes are shown on Attachment B-2 (page B-32).
- Coverage Code (Numeric Field: Positions 26-27)
  Indicate the kind of coverage provided using the appropriate coverage code. Valid codes are shown on Attachment B-3 (page B-33).

general reporting instructions (page 28).

- Annual Statement Line of Business (Numeric Field: Positions 28-30)

  Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the
- Reserved (Positions 31-32)
  Report blank.
- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the classification code. Valid codes are shown on Attachment B-6 (pages B-41 through B-54).
- <u>Sprinkler Indicator(Numeric Field: Position 38)</u>
  Report 1 to indicate a sprinklered risk. Otherwise report 0.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

• Five-Digit Zip Code (Numeric Field: Positions 39-43)
Report the applicable five-digit ZIP code of the location of the insured premises. See section 4 (page B-2) for more detailed instructions.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

• Plus-Four Zip Code (Numeric Field: Positions 44-47)
Report the applicable plus-four ZIP code of the location of the insured premises. At the present time this field is optional and carriers may report zero. See section 4 (page B-2) for more detailed instructions.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

• Place Code (Numeric Field: Positions 48-52)
Report the applicable place code. Valid codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 29. Refer to section 5, page B-3 for specific reporting instructions.

This field is optional for limited coded transactions.

• Construction Code (Numeric Field: Position 53)
Report the applicable construction code. Valid codes are shown on Attachment B-4 (pages B-35 through B-38).

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 54-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- <u>Policy Identifier (Alphanumeric Field: Positions 66-79)</u>
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-112)
  Report blank.

#### **Quarterly Property Experience Report**

#### **Record Layout and Field Definitions - Loss Transactions**

• Deductible (Numeric Field: Positions 113-118)
Report the deductible applicable to the occurrence being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, report zero.

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

- Reserved (Positions 119-176)
  Report blank.
- Occurrence Date (Numeric Field: Positions 177-182)

  Report the date on which the loss occurred, in YYMMDD format.

  Run-off business, as defined in section 7, page B-5, may optionally be reported in YYMM00 format.
- Reserved (Positions 183-185)
  Report blank.
- Type of Loss (Numeric Field: Positions 186-187)
  Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment B-5 (page B-39).

The Run-Off Reporting Rule (see section 7, page B-5) is applicable to this element.

- Reserved (Positions 188-189)
  Report blank.
- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, paid ALAE, outstanding ALAE, or salvage and subrogation amount consistent with the transaction identifier.
- Occurrence Identifier (Alphanumeric Field: Positions 199-212)
  Report the occurrence identifier.
- Reserved (Positions 213-270)

Report blank.

• Reserved for Company Use (Positions 271-300)

coverage but with windstorm exclusion (b)	029 (a) 032 (a)	079	
Other - including miscellaneous extensions of coverage and run-	038	070	019
off business (subject to limited coding)	040	090	0.10
	041		
	042		
	043		
	044		
	050		
	090		
Other Coverage (subject to limited coding)			099

<sup>\*</sup> Carriers shall report using the appropriate TDI code.

- (a) TICO plan uses the same subline regardless of whether windstorm is included or excluded. TICO plan uses a code in the deductible field to indicate windstorm coverage or exclusion.
- (b) Carriers may opt to report "special" or "broad" form policies in one of two ways. The option selected shall be uniform for all risks.

Under the first option, experience for the named peril component of the policy should be reported under sublines 011 or 016 as appropriate. Additional premiums and losses for broadened coverage should be reported under sublines 012 or 017 as appropriate.

Under the second option, all experience should be reported under sublines 012 or 017 as appropriate.

#### **COVERAGE CODES**

Description	Code
First Digit (Coverage for direct damage)	
No coverage for direct damage	0
Building	1
Business Personal Property	2
Building and Business Personal Property Combined	3
Other	9
Second Digit (Coverage for time element)	
No coverage for time element	0
Time Element	9

<sup>\*\*</sup> The coverage codes should reflect the record being coded. This may or may not coincide with the policy. For example, a record may reflect time element only and be coded as 09 even though the underlying policy may also provide direct and time loss coverage.

Note: For reporting coverage codes on run-off transactions, use the following conversion table:

	ISO C/W	ISO TX	TDI
Description	Code	Code	Equivalent
Building	1	1	10
Personal Property	2	2	20
Building and/or Personal Property Combined	3	3	30
Time Element - Earnings/Business Income (O/T Rental Properties)	4	4	09
Time Element - Rental Value/Business Income (Rental Properties)	5	5	09
Time Element - Extra Expense	6	6	09
Time Element - All Other	7	7	09
Contingent Liability		8	90
Loss of Business Income		9	09
Optional Contaminant and Pollutant Cleanup & Removal	9		90

## **TYPE OF LOSS CODES**

Description	Cod	de *
	Direct Physical Loss	Time Element
Fire & Lightning	<u>01</u>	31
Wind & Hail	<u>02</u>	32
<u>Explosion</u>	<u>03</u>	33
Riot, or Civil Commotion	<u>04</u>	34
Vandalism and Malicious Mischief	<u>05</u>	35
Sprinkler Leakage	<u>06</u>	36
Burglary, Theft, Robbery, Mysterious Disappearance	<u>07</u>	37
Water Damage	<u>08</u>	38
Freeze	10	40
Losses due to an act of terrorism certified under the Terrorism Risk Insurance Act (applicable to sublines 001, 011, 012, 016. 017 and 099)	15	45
Other	19	49

<sup>\*</sup> The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes. For example, if a tornado damages the roof of a building and rain subsequently enters the building through the roof causing further damage, all losses shall be coded as "wind & hail" and not water damage. Similarly, if cold weather causes a pipe to freeze which then bursts and causes damage, all losses shall be coded as "freeze".

# **Quarterly Businessowners Experience Report**

# **Specific Instructions**

## **Specific Instructions - Premiums and Losses**

## 1. Report Description

Every Company licensed in Texas with direct businessowners premium or loss experience in Texas shall quarterly submit this report of premium, loss and loss adjustment expense experience.

### 2. Definition of Businessowners

For the purposes of this report, "businessowners" refers to businessowner policies and similar property/liability insurance programs that provide package policies to small businesses. This includes both divisible and indivisible premium programs.

All lines of coverage written on a businessowners policy shall be reported in the Quarterly Businessowners Experience Report. For example, if a businessowners policy also includes inland marine, then the inland marine experience shall be included in this report.

## 3. Deductible Reporting

Report deductible amounts for both premium and loss transactions.

#### Deductibles -- Premium Transactions

The deductible applying to fire, windstorm, and theft losses to buildings and business personal property shall be separately reported. The fire deductible shall be reported in the "fire deductible" field, the windstorm deductible in the "windstorm deductible" field, and the theft deductible in the "theft deductible field".

Deductibles shall be reported as a dollar amount. For example, report a \$250 deductible as 250. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one). If the company captures deductibles by ranges, report the midpoint of the range. If there is no deductible or if the coverage is not offered (e.g., windstorm exclusion), report zero.

For transactions containing multiple coverages and multiple deductibles, report the deductible applicable to the major coverage provided.

Report the deductible that applies to the coverage being reported on the record. For example, if a policy provides a \$1000 property deductible and a \$0 liability deductible and the record relates only to liability, report \$0.

#### Deductibles -- Loss Transactions

The single deductible applicable to the occurrence being reported shall be reported in the "policy deductible" field. If the deductible is not a fixed dollar amount, but determined as a percentage of loss or by some other basis, report the actual dollar amount of the deductible. If there is no deductible, report zero.

## 4. Classifications

Classification codes shall be reported to indicate the business of the policyholder. Valid classification codes are shown on Attachment C-4 (pages C-37 through C-40).

Companies that offer programs for businesses that are not classified should notify the Texas Department of Insurance of the types of business involved so that additional codes may be added as necessary.

# **Quarterly Businessowners Experience Report**

## 5. ZIP Code Reporting

Report the ZIP code location of the building insured or the building containing the insured's property. For multilocation risks that cannot be separately reported, report the ZIP code as zero.

There are two ZIP Code fields -- Five Digit ZIP code and Plus-Four ZIP extension. Five digit ZIP Code reporting is required, but Plus-Four ZIP reporting is optional.

Five digit ZIP code reporting is required on all transactions on all new and renewal policies

## 6. Place Code Reporting

Reporting of a three digit place code (county identifier) is required in addition to the requirement of ZIP codes specified in section 4. The last two digits of the place code may optionally be reported zero or with a code consistent with the transaction being reported.

Valid five digit place codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 29. Valid three digit place codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 51.

When five digit place codes are required to be reported, the full five digits shall be used whenever the location of the risk being rated can be identified as being within a particular town or city. For risks which do not fall within the limits of a town or city, a three digit place code should be used to identify the *county* in which the risk is located, and the last two digits shall be reported zero.

# 7. Policy Limits

The policy limit field captures the policy limit applicable to liability claims. Both premium and loss records contain a policy limit field. However, there are some differences in reporting between premium and loss transactions. The policy limit should be reported in thousands of dollars. For example, if the policy limit is \$500,000, report 500 Policy limits under \$1,000 shall be reported as 1 (one).

#### Policy Limits -- Premium Transactions

Report the Policy Limit Per Occurrence that applies to bodily injury liability claims in thousands of dollars. If the policy provides multiple types of liability insurance and the limit varies by type of insurance, report the limit that applies to the major coverage provided.

## Policy Limits -- Loss Transactions

For liability claims report the Policy Limit Per Occurrence applicable to the type of loss being reported in thousands of dollars.

For medical payment claims and property claims report the policy limit as zero on both premium and loss transactions.

## 8. Limited Reporting

Premium and loss transactions for certain classifications may be reported on a limited coded basis. These classifications include minimum premiums, classifications subject to the run-off reporting rule (see section 9, page C-7), and other classifications specifically identified as limited coded on Attachment C-6. For limited reporting records, the following data elements only are required to be reported. At the reporting company's option, the other elements shall be reported zero or with entries consistent with the instructions.

## Premium Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Terrorism Coverage Code
- Coverage Code
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Transaction Effective Date
- Transaction Expiration Date
- Direct Written Premium

## Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Terrorism Coverage Code
- Coverage Code
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Policy Limit
- Policy Deductible
- Occurrence Date
- Type of Loss
- Loss Amount
- Occurrence Identifier

If a reporting company desires to report other types of business using limited coding, they should contact the Texas Department of Insurance for further instructions.

## 9. Run-Off Reporting Rule

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For run-off transactions, certain elements as identified in the field definitions may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For run-off transactions, the classification codes shall, whenever possible, be reported in the detail otherwise required by this plan. This will include almost all situations. In the rare instances where the prior classification code cannot be matched with a classification code currently contained in this plan, the company shall report this run-off business under a "special" run-off classification code of 99997. See Attachment C-4, page C-40.

Coverage codes reported on run-off transactions shall be converted and matched to the codes promulgated in this statistical plan (see Attachment C-1, page C-29).

For editing purposes, the record inception date reported on all run-off business shall be the inception date <u>originally</u> reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

Carriers that are unclear as to whether they should use the "special" run-off classification code in any specific instance should contact the Texas Department of Insurance.

## **Quarterly Businessowners Experience Report**

This page reserved for future use

## **Specific Instructions - Premiums**

## 10. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium, or else the additional premium may be limited coded using class code 99999 (see Attachment C-6, page C-40). See section 8, limited reporting, page C-5, for a listing of the elements required to be reported on limited coded transactions.

## 11. Exposure Reporting

For all classifications exposure is defined to be the amount of insurance for building and business personal property coverage.

Exposure shall be reported for time element coverages for all policies

If there is no exposure, report zero.

## **Quarterly Businessowners Experience Report**

This page reserved for future use.

## **Specific Instructions - Losses**

#### 12. Type of Loss Reporting

The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes. For example, if a tornado damages the roof of a building and rain subsequently enters the building through the roof causing further damage, all losses shall be coded as "wind & hail" and not water damage. Similarly, if cold weather causes a pipe to freeze which then bursts and causes damage, all losses shall be coded as "freeze."

Type of loss codes are shown on Attachment C-3, page C-35.

## **Record Layout and Field Definitions - Premium Transactions**

- Plan Code (Numeric Field: Positions 1-2) Report 03 to indicate Quarterly Businessowners Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7) Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10) For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14) Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15) Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17) Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page
- Terrorism Coverage Code\* (Numeric Field: Position 18) Underlying Policy\*

	Is coverage for certified acts of
	terrorism included in the underlying
Code	policy at no additional premium?
1	N (no)
3	Y (yes)

Terrorism Coverage\*\*

Code	Coverage provided for acts of
7	Terrorism certified under the
	Terrorism Risk Insurance Act***.

- Certified Acts of Terrorism coverage refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify premiums associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following reporting instructions and placing zeros in the premium amount field(s) on the record. For a Standard Fire Policy, the premium charged for statutory fire following coverage for certified acts of Terrorism in situations where an insured

## **Quarterly Businessowners Experience Report**

rejected full certified acts coverage should also be separately reported.

- Reserved (Positions 19-22)
  Report blank.
- Coverage Code (Numeric Field: Positions 23-27)
  Indicate the type of property or liability coverage being reported. Valid codes are shown on Attachment C-1 (page C-29).
- Annual Statement Line of Business (Numeric Field: Positions 28-30)

  Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).
- Reserved (Positions 31-32)
  Report blank.
- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the classification code. Valid codes are shown on Attachment C-4 (pages C-37 through C-40).

• Sprinkler Indicator(Numeric Field: Position 38)
For building and business personal property coverages,
(coverage codes x1xxx, x2xxx, or x3xxx), report 1 to
indicate a sprinklered risk. Otherwise report 0.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

• Five-Digit Zip Code (Numeric Field: Positions 39-43)
Report the applicable five-digit ZIP code of the location of the insured premises. See section 5 (page C-3) for more detailed instructions.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

• Plus-Four Zip Code (Numeric Field: Positions 44-47)
Report the applicable plus-four ZIP code of the location of the insured premises. At the present time this field is optional and carriers may report zero. See section 5 (page C-3) for more detailed instructions.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

Place Code (Numeric Field: Positions 48-52)
Report the applicable place code. Valid codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 29. Refer to section 6, page C-3 for specific reporting instructions.

This field is optional for limited coded transactions.

• Construction Code (Numeric Field: Positions 53-54)
For building and business personal property coverages,
(coverage codes x1xxx, x2xxx, or x3xxx), report the
applicable construction code. Valid codes are shown on
Attachment C-2 (pages C-31 through C-34). Otherwise,
report 0.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This	field	is	optional	for	limited	coded	transactions.

- Reserved (Positions 55-57) Report blank.
- Record Inception date (Numeric Field: Positions 58-61) Report the inception date in YYMM format.
- Reserved (Positions 62-65) Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79) Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Policy Limit (Numeric Field: Positions 80-87) For liability coverages (coverage codes 1xxxx or 9xxxx), report the occurrence policy limit applicable to the major liability coverage provided. If there are separate limits for bodily injury and property damage liability report the bodily injury limit. Report the limit rounded to the nearest thousands of dollars. For example, report \$300,000 as 300 and \$1,000,000 as 1000. Limits under \$1,000 shall be reported as 1 (one).

If the transaction does not include liability, report zero.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 88-112) Report blank.
- Fire Deductible (Numeric Field: Positions 113-118) For building and business personal property coverages (coverage codes x1xxx, x2xxx, or x3xxx), report the deductible applicable to fire losses for the coverage being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, or if the coverage is not offered, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one). For all other coverages, report zero.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 119-123)
  Report blank.
- Transaction Effective Date (Numeric Field: Positions 124-129)

  Report the transaction effective date in YYMMDD format.

  Run-off business, as defined in section 9, page C-7, may optionally be reported in YYMM00 format.
- Transaction Expiration Date (Numeric Field: Positions 130-135)
  Report the transaction expiration date in YYMMDD format.
  Run-off business, as defined in section 9, page C-7, may optionally be reported in YYMM00 format.
- <u>Direct Written Premium (Numeric Field: Positions 136-145)</u> Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-148)
  Report blank.
- Property Exposure (Numeric Field: Positions 149-153)
  For building and business personal property coverages
  (coverage codes x1xxx, x2xxx, or x3xxx), report the amount
  of coverage for building and business personal property in
  thousands of dollars. Report 99999 for amounts over
  \$99,999,000. For all other coverages, report zero.

This field is optional for limited coded transactions.

• Time Element Exposure (Numeric Field: Positions 154-158)
For time element coverages (coverage code xx9xx), report
the exposure in thousands of dollars. Report 99999 for
amounts over \$99,999,999. For all other coverages, report
zero.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

• Reserved (Positions 159-161)
Report blank.

• Individual Risk Rating Modification (Numeric Field: Positions 162-164)

Report the individual risk rating modification used to rate the coverage. See section 25 (page 20) of the general reporting instructions for further instructions.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

Theft Deductible (Numeric Field: Positions 165-170)
For theft coverages (coverage code xxx9x), Report the deductible applicable to theft losses for the coverage being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, or if the coverage is not offered, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one). For all other coverages, report zero.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

• Windstorm Deductible (Numeric Field: Positions 171-176)
For windstorm coverages (coverage code xxxx9), report the deductible applicable to windstorm losses for the coverage being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, or if the coverage is not offered, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one). For all other coverages, report zero.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 177-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

- Plan Code (Numeric Field: Positions 1-2) Report 03 to indicate Quarterly Businessowners Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7) Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10) For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14) Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15) Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17) Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page
- Terrorism Coverage Code\* (Numeric Field: Position 18) Underlying Policy

	Is coverage for certified acts of
	terrorism included in the underlying
Code	policy at no additional premium?
1	N (no)
3	Y (yes)

Terrorism Coverage\*\*

Code	Coverage	provid	led fo	r act	s of
7	Terrorism	n certi	fied	under	the
	Terrorism	n Risk	Insur	ance	Act***.

- \* Certified Acts of Terrorism coverage refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify losses associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following reporting instructions and placing zeros in the premium amount field(s) on the record. For a Standard Fire Policy, the premium charged for statutory fire following coverage for certified acts of Terrorism in situations where an

insured rejected full certified acts coverage should also be separately reported.

- Reserved (Positions 19-22)
  Report blank.
- Coverage Code (Numeric Field: Positions 23-27)
  Indicate the type of property or liability coverage being reported. Valid codes are shown on Attachment C-1 (page C-29).
- Annual Statement Line of Business (Numeric Field: Positions 28-30)

  Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).
- Reserved (Positions 31-32)
  Report blank.
- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the classification code. Valid codes are shown on Attachment C-4 (pages C-37 through C-40).
- Sprinkler Indicator(Numeric Field: Position 38)
  For building and business personal property coverages,
  (coverage codes x1xxx, x2xxx, or x3xxx), report 1 to
  indicate a sprinklered risk. Otherwise report 0.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

• Five-Digit Zip Code (Numeric Field: Positions 39-43)
Report the applicable five-digit ZIP code of the location of the insured premises. See section 5 (page C-3) for more detailed instructions.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

Plus-Four Zip Code (Numeric Field: Positions 44-47)
Report the applicable plus-four ZIP code of the location of the insured premises. At the present time this field is optional and carriers may report zero. See section 5 (page C-3) for more detailed instructions.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

Place Code (Numeric Field: Positions 48-52)
Report the applicable place code. Valid codes are shown on Attachment 3 of the General Reporting Instructions beginning on page 29. Refer to section 6, page C-3 for specific reporting instructions.

This field is optional for limited coded transactions.

• Construction Code (Numeric Field: Positions 53-54)
For building and business personal property coverages,
(coverage codes x1xxx, x2xxx, or x3xxx), report the
applicable construction code. Valid codes are shown on
Attachment C-2 (pages C-31 through C-34). Otherwise,
report 0.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 55-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.

• Policy Limit (Numeric Field: Positions 80-87)
For liability loss transactions, report the policy limit applicable to the occurrence being reported. Report the limit rounded to the nearest thousands of dollars. For example, report \$300,000 as 300 and \$1,000,000 as 1000. Limits under \$1,000 shall be reported as 1 (one).

If the transaction does not include liability, report zero.

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

- Reserved (Positions 88-112)
  Report blank.
- Policy Deductible (Numeric Field: Positions 113-118)
  Report the deductible applicable to the occurrence being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If there is no deductible, or if the coverage is not offered, report zero. If the deductible cannot be expressed as a fixed dollar amount, report 1 (one).

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

- Reserved (Positions 119-176)
  Report blank.
- Occurrence Date (Numeric Field: Positions 177-182)

  Report the date on which the loss occurred, in YYMMDD format. Run-off business, as defined in section 9, page C-7, may optionally be reported in YYMM00 format.

- Reserved (Positions 183-185)
  Report blank.
- Type of Loss (Numeric Field: Positions 186-187)
  Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment C-3 (page C-35).

The Run-Off Reporting Rule (see section 9, page C-7) is applicable to this element.

- Reserved (Positions 188-189)
  Report blank.
- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, paid ALAE, outstanding ALAE, or salvage and subrogation amount consistent with the transaction identifier.
- Occurrence Identifier (Alphanumeric Field: Positions 199-212)
  Report the occurrence identifier.
- Reserved (Positions 213-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

### **COVERAGE CODES**

Description	Code
First Digit (Description of Liability Coverages)	
No liability coverage	0
Coverage for Premises/Operations and Products/Completed Operations	1
Other Optional Liability Coverages	9
Second Digit (Coverage for Direct Damage)	
No coverage for direct damage	0
Building	1
Business Personal Property	2
Building and Business Personal Property Combined	3
Optional Property Coverage (no exposure required)	9
Third Digit (Coverage for Time Element)	
No coverage for time element	0
Time Element	9
Fourth Digit (Description of Theft Coverage)	
No theft coverage	0
Theft coverage	9
Fifth Digit (Description of Windstorm)	
No windstorm coverage	0
Windstorm coverage	9

<sup>\*\*</sup> The coverage codes should reflect the record being coded. This may or may not coincide with the policy. For example, a record may reflect liability only and be coded as 10000 even though the underlying policy may also provide property coverage.

#### **TYPE OF LOSS CODES**

Description	Co	de
	Direct	
	Physical	Time
Property Coverages	Loss	Element
Fire & Lightning	01	<u>31</u>
Wind & Hail	02	<u>32</u>
Explosion	03	<u>33</u>
Riot, or Civil Commotion	04	<u>34</u>
Vandalism and Malicious Mischief	05	<u>35</u>
Sprinkler Leakage	06	<u>36</u>
Burglary, Theft, Robbery, Mysterious Disappearance	07	<u>37</u>
Water Damage	08	38
Freeze	10	40
Losses due to acts of terrorism certified under the Terrorism		
Risk Insurance Act	15	45
Other – Property	19	49
Liability Coverages	Co	ode
Premises/Operations and Products/Completed Operations	2	1
Losses due to an act of terrorism certified under the Terrorism		
Risk Insurance Act	9	5
Other – Liability	2	5

<sup>\*</sup> The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes. For example, if a tornado damages the roof of a building and rain subsequently enters the building through the roof causing further damage, all losses shall be coded as "wind & hail" and not water damage. Similarly, if cold weather causes a pipe to freeze which then bursts and causes damage, all losses shall be coded a "freeze".

# **Specific Instructions**

# **Specific Instructions - Premiums and Losses**

# 1. Report Description

Every Company licensed in Texas with direct commercial automobile premium or loss experience in Texas shall quarterly submit this report of premium, loss and loss adjustment expense experience.

## 2. Definition of Commercial Automobile Business

For the purposes of this report, "Commercial automobile" business includes all business reported on lines 19.3, 19.4 and 21.2 of the Annual Statement Texas Page 14, as well as automobile experience reported under line 5.2 except:

- Experience that is reported by the company under the Quarterly Detailed Experience Report of the Texas Private Passenger Automobile Statistical Plan. It should be noted this exception has only the potential to apply to companies in the "Top Reporting Group" as defined in the Private passenger Statistical Plan;
- Experience that is reported by the company under the Texas Statistical Plan for Businessowners; and
- Experience of large property/liability package policies with indivisible premium.

For the purpose the Commercial Automobile Experience Report, all commercial automobile business falls into one of six categories: Non-Owned Automobiles; Garage Risks; Trucks, Tractors and Trailers; Private Passenger Types; Public Automobiles; and, Special Types.

#### Definition of Non-Owned Automobiles

"Non Owned Automobile" consists of two categories of business:

- Hired Automobiles; and,
- Employers Non-Ownership Liability

"Hired Automobiles" consist of policies providing automobile insurance for vehicles hired, loaned, leased or furnished to the policyholder except vehicles insured under personal automobile or garage policies. Refer to Rule 24 of the Texas Automobile Rules and Rating Manual.

"Employers' Non-Ownership Liability" consists of policies providing automobile insurance to an organization for its liability for employees using their own automobiles in the business of the organization. Refer to Rule 23 of the Texas Automobile Rules and Rating Manual.

#### Definition of Garage Risks

"Garage Risks" consist of policies providing automobile insurance to automobile dealers, service stations, parking facilities and garages. Refer to section VI of the Texas Automobile Rules and Rating Manual (Rules 93, 95, 98 and 99).

## Definition of Trucks, Tractors and Trailers

"Trucks, Tractors and Trailers" consist of policies providing automobile insurance to owners/operators (including certain renters and leasers) of commercial vehicles. This category excludes:

- vehicles defined as public automobiles;
- garage risks;
- vehicles rented or leased to others; and,
- vehicles defined as a special type.

Refer to Rule 55 of the Texas Automobile Rules and Rating Manual.

#### Definition of Private Passenger Types

"Private passenger types" consist of policies providing automobile insurance to owners/operators (including certain renters and leasers) of private passenger vehicles. This category excludes:

- vehicles insured under a non-fleet personal automobile policy;
- vehicles defined as public automobiles;
- garage risks;
- vehicles rented or leased to others; and,
- vehicles defined as a special type.

#### Definition of Public Automobiles

"Public automobiles" consist of policies providing automobile insurance to owners/operators (including certain renters and leasers vehicles used for public transportation. This includes taxicabs and limousines, school and church buses, other types of buses and van pools. Refer to Rule 85 D 2 of the Texas Automobile Rules and Rating Manual.

#### Definition of Special Types

"Special Types" consist of policies providing insurance to vehicles used for special purposes and miscellaneous type vehicles that are insured by other than a personal automobile policy. For the specific types of policies includes refer to Section VII of the Texas Automobile Rules and Rating Manual. Examples include;

- ambulance services;
- fire department;
- law enforcement;
- rental or leasing concern;
- motorcycles (commercial);
- vendors single interest; and,
- large composite risks.

# 3. Definitions of Special Terms

For the purposes of the commercial automobile experience report the following definitions apply:

Private passenger vehicles are defined in the Texas Automobile Rules and Rating Manual as follows:

- Private Passenger Automobiles (Rule 71 A 1)
- Certain Utility Vehicles (Rules 71 A 2)
- Certain Farm Vehicles (Rules 71 A 3)

**Commercial vehicles** are defined to mean buses, vans, utility vehicles, trucks, tractors or truck-tractors that are not private passenger type vehicles as defined above.

Miscellaneous vehicles are defined to include all other vehicles (e.g., motorcycles, snowmobiles, golf carts etc.)

Truckers are defined to be "a person, firm or corporation in the business of transporting goods, materials or commodities for another, including any person, firm or corporation require to obtain a Railroad Commission Permit from the Motor Transportation Division". Refer to Rule 58 of the Texas Automobile Rules and Rating Manual for more details.

# 4. Deductible Reporting

Report deductible amounts for both premium and loss transactions.

#### Deductibles -- Premium Transactions

Report the per occurrence deductible for the coverage being reported in dollars. For example, report a \$50 deductible as 50 and \$100 deductible as 100. If the deductible is not a fixed dollar amount, report 1 (one). If the company captures deductibles by ranges, report the midpoint of the range. If there is no deductible, report zero.

For transactions containing multiple coverages and multiple deductibles, report the deductible applicable to the major coverage provided.

#### Deductibles -- Loss Transactions

Report the deductible applicable to the occurrence being reported. If the deductible is not a fixed dollar amount, but determined as a percentage of loss or by some other basis, report the actual dollar amount of the deductible. If there is no deductible, report zero.

# 5. Excess Loss Reporting

This rule is applicable to loss transactions only. In this rule, "excess" refers to liability claims that exceed the maximum mandatory limits. This should not be confused with excess policies.

Individual claims resulting from an occurrence shall be identified as specified under the Claimant Identifier. This information will enable the statistical agent to calculate losses in excess of mandatory minimum limits of liability. In these circumstances no special excess report is required.

A company unable to identify individual claims resulting from an occurrence shall proceed as follows:

- (a) The reporting company shall notify the statistical agent of its situation.
- (b) The company shall report all its experience in accordance with the instructions of this plan except that the Claimant Identifier shall be reported as zero.
- (C) In addition to (b), the company shall submit each quarter a special excess loss report to the statistical agent. This report shall include all transactions associated with claims in excess of the mandatory minimum limits and shall include a proper Claimant Identifier for occurrences with losses in excess of mandatory minimum limits of liability. This report shall be identified using Plan Code 28. This report shall also include corresponding offset records to records already reported under (b) above. These offset records shall be identical to the entries already reported under Plan Code 26 except that the sign of the loss, allocated loss adjustment expense, salvage and subrogation or premium amounts shall be reversed. In particular, report the Claimant Identifier as zero in the offset record.

- (d) It is important that the statistical agent has sufficient information to construct the inception-to-date loss amounts for each claimant. The following transactions shall be reported:
  - If an occurrence is being included for the first time on the special excess report, the report shall contain all transactions from inception-to-date associated with each claimant and not only those transactions made in the current experience quarter. Similarly, there shall be offset records corresponding to all transactions previously reported for that occurrence on previous and current quarterly detailed experience reports.
  - If an occurrence has previously been reported on the special excess report, only the transactions occurring in the current experience quarter shall be reported. Similarly, there shall be offset records corresponding to transactions made in the current experience quarter only.
- (e) Before the special excess report is submitted, companies shall verify that claimant records and offset records balance. For example, the sum of paid losses or outstanding losses should be zero.

# **Specific Instructions - Premiums and Losses**

## 6. Classifications

Classification codes shall be reported to indicate the type of coverage provided. Valid classification codes are shown on Attachments D-7 through D-12 (pages D-47 through D-58).

# 7. Large Composite Risks

Whenever feasible, experience shall be reported in detail according to the vehicle/risk specific classifications set forth in this plan. It is however recognized that this method of reporting may not be practical for large composite, retrospective or loss rated policies. For the purpose of this plan such risks are referred to as "large composite risks."

Experience for large composite risks may be reported on a limited coded basis using classification code 99991 (see Attachment D-12, page D-58). See section 9, page D-10 for a list of the elements required to be reported on limited coded transactions.

# 8. Policy Limits

There are two fields for policy limits -- Policy Limit Per Claimant and Policy Limit Per Occurrence -- for both premium and loss transactions. There are some differences in reporting between premium and loss transactions.

## Policy Limits -- Premium Transactions

For liability and no-fault premium transactions, report the Policy Limit Per Claimant and Policy Limit Per Occurrence provided by the policy for the coverage being reported in thousands of dollars. For example, report \$20,000 as 20 and \$100,000 as 100. Policy limits under \$1,000 shall be reported as 1 (one). For physical damage premium transactions, report zero in the policy limits fields.

For transactions containing multiple coverages, report the policy limits for each coverage on the applicable unit transaction record. For transactions that represent two or more coverages or multiple sets of policy limits, report the policy limits applicable to the major coverage provided. For example, on combined bodily injury and property damage liability transactions, report only the bodily injury limits.

If the Policy Limit Per Claimant is the same as the Policy Limit Per Occurrence, report this amount in both fields. If there is a Policy Limit per Claimant but no Policy Limit Per Occurrence, report 99999999 in the Policy Limit per Occurrence field.

## Policy Limits -- Loss Transactions

For liability and no-fault loss transactions, report the Policy Limit Per Claimant and Policy Limit Per Occurrence applicable to the type of loss being reported in thousands of dollars. Policy limits under \$1,000 shall be reported as 1 (one). For physical damage loss transactions, report zero in the policy limits fields.

If the Policy Limit Per Claimant is the same as the Policy Limit Per Occurrence, report this amount in both fields. If there is a Policy Limit per Claimant but no Policy Limit Per Occurrence, report 99999999 in the Policy Limit per Occurrence field.

# 9. Limited Reporting

Premium and loss transactions for certain classifications may be reported on a limited coded basis. These classifications include minimum premiums, provisional or deposit premiums for audited risks, adjustments to retrospectively rated risks, large composite risks, excess policies, classifications subject to the run-off reporting rule (see section 10, page D-12), and other classifications specifically identified as limited coded on Attachments D-7 through D-12. For limited reporting records, the following data elements only are required to be reported. At the reporting company's option, the other elements shall be reported zero or with entries consistent with the instructions.

## Premium Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Terrorism Coverage Code
- Type of Business
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Transaction Effective Date
- Transaction Expiration Date
- Direct Written Premium

## Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Terrorism Coverage Code
- Type of Business
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Policy Limit Per Occurrence
- Policy Limit Per Claimant
- Deductible
- Occurrence Date
- Catastrophe Code
- Type of Loss Code
- Claim Count
- Loss Amount
- Occurrence Identifier
- Claimant Identifier
- Accident State

If a reporting company desires to report other types of business not specifically identified using limited coding, they should contact the Texas Department of Insurance for further instructions.

# 10. Run-Off Reporting Rule

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For run-off transactions, certain elements as identified in the field definitions may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For run-off transactions, the classification codes shall, whenever possible, be reported in the detail otherwise required by this plan. This will include practically all situations. In the rare instances where the prior classification code cannot be matched with a classification code currently contained in this plan, the company shall report this run-off business under a "special" run-off classification code of 99997. See Attachment D-12, page D-58.

For editing purposes, the record inception date reported on all run-off business shall be the inception date <u>originally</u> reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

Carriers that are unclear as to whether they should use the "special" run-off classification code in any specific instance should contact the Texas Department of Insurance.

# 11. Assigned Risk Reporting

Assigned risk business shall be reported using type of business code 3 and shall be subject to the same coding requirements as voluntary business. Refer to the record layouts and field definitions on pages D-21 and D-29 for further information regarding type of business code.

This page is reserved for future use.

This page is reserved for future use.

# **Specific Instructions - Premiums**

## 12. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium, or else the additional premium may be limited coded using class code 99999 (see Attachment D-12, page D-58). See section 9, limited reporting, page D-10 for a listing of the elements required to be reported on limited coded transactions.

# 13. Exposure Reporting

Exposures shall be reported for each classification. The exposure base to be reported is shown with the classification codes on Attachments D-7 through D-12 (pages D-47 through D-58).

The exposure bases required to be reported are consistent with those required and defined in the Texas Automobile Rules and Rating Manual.

If there is no exposure, report zero.

# **Specific Instructions - Premiums**

# 14. Premium Audit Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

The provisional or deposit premium shall wherever possible be coded in detail to the appropriate classification. When this is not possible provisional or deposit premium may be limited coded using class code 99998 (see Attachment D-12, page D-58). In the latter case, the limited coded record shall subsequently be reversed using transaction code 29 and replaced with detail coded information as it becomes available from audits. The premium amount on the deposit / provisional premium record shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Audit adjustments shall be reported using the audit adjustment transaction code (16) and shall be reported in detail. The audit adjustment transaction record shall have the same codes as previously reported on the provisional or deposit premium transaction record except:

- (a) The accounting date shall be the date the adjustment was recorded on the company's books.
- (b) The premium and exposure amounts shall reflect the audit adjustment.

See section 9, limited reporting, (page D-10) for the applicable elements required to be reported on a limited reporting transaction.

# **Specific Instructions - Premiums**

# 15. Premium Retrospective Rating Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Retrospective adjustments to the provisional or deposit premium shall be reported using the retrospective adjustment transaction code (20). Wherever possible such adjustments shall be coded to the appropriate classification, coverage etc. When this is not possible premium adjustments may be limited coded using class code 99995 (see Attachment D-12, page D-58).

See section 9, limited reporting, (page D-10) for the applicable elements required to be reported on a limited code transaction.

This page reserved for future use.

# **Specific Instructions - Losses**

# 16. Type of Loss Reporting

The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes.

Type of loss codes are shown on Attachment D-5, page D-45.

## 17. Claimant Identifiers

The Claimant Identifier shall be a four (4) digit alphanumeric string assigned by the company to each claimant. The Claimant Identifier shall uniquely define claimants associated with a given occurrence and be sufficient for the company to locate the claimant in its records.

Companies unable to identify individual claimants resulting from an occurrence should report Claimant Identifier as zero and refer to section 5, Excess Loss Reporting (page D-6).

# 18. Reporting of Outstanding Losses

The reporting of outstanding loss transactions is optional for physical damage records only (coverage codes 301 and 302). Outstanding loss transactions are required for all other coverages.

This page reserved for future use.

## **Record Layout and Field Definitions - Premium Transactions**

• Plan Code (Numeric Field: Positions 1-2)
Report the appropriate plan code:

#### Code Report

- 26 Quarterly Commercial Automobile Experience Report
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)
  For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19)
  Indicate the type of policy. Valid codes are shown on Attachment D-1 (page D-41).
- Terrorism Coverage Code\* (Numeric Field: Position 20)
  Underlying Policy

Is coverage for certified acts of terrorism included in the underlying Code policy at no additional premium?

1 N (no)
3 Y (yes)

Terrorism Coverage\*\*

Code Coverage provided for acts of Terrorism certified under the Terrorism Risk Insurance Act\*\*\*.

- \* Certified acts of terrorism refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify premiums associated with terrorism coverage, apart from those associated with coverage in the underlying policy.

\*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following the reporting instructions and placing zeros in the premium amount field(s) on the record.

- Reserved (Position 21)
  Report blank.
- <u>Type of Business (Numeric Field: Position 22)</u>
  Indicate the type of business using the appropriate code:

## Code Type of Business

- 1 Voluntary business written by a rate-regulated company.
- 2 Voluntary business written by a County Mutual.
- 3 Involuntary (Assigned Risk) business.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

• <u>Coverage Code (Numeric Field: Positions 23-25)</u>
Report the Coverage Code. Valid Codes are shown on Attachment D-2 (page D-42).

This field is optional for limited coded transactions.

• Subcoverage Code (Numeric Field: Positions 26-27)
For Coverage Codes 301 (Collision) and 302 (Other than Collision) report the Sub-Coverage Code. Valid codes are shown on Attachment D-3 (page D-43). For other coverages, report zero.

This field is optional for limited coded transactions.

• Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Territory (Numeric Field: Positions 31-32)
  Report the two digit territory code from the Texas
  Automobile Rules and Rating Manual. Territory should be
  reported for all coverages, even those coverages not
  currently subject to territorial rating except that
  territory is optional for the following:
  - all "non owned automobile" classifications;
  - all classifications for which exposure is not required; and
- all zone rated classifications.

This field is optional for limited coded transactions.

#### **Record Layout and Field Definitions - Premium Transactions**

- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the classification code. Valid codes are shown on Attachments D-7 through D-12 (pages D-47 through D-58).
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the record inception date in YYMM format.
- Dealers Collision Value Per Rating Unit (Numeric Field: Positions 62-63)

If subcoverage code is 41 (Dealers Collision), report the value per rating unit in thousands of dollars. For values in excess of \$99,000, report 99. For other coverages report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 64-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Policy Limit Per Occurrence (Numeric Field: Positions 80-87)

Report the per occurrence limit, rounded to the nearest thousands of dollars. For physical damage and other coverages for which no limit applies, report zero. See section 8 (page D-9) for differences in reporting by coverage and by transaction type.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

Policy Limit Per Claimant (Numeric Field: Positions 88-95)
For coverages other than physical damage, report the per claimant limit rounded to the nearest thousands of dollars. For example, report \$300,000 as '300' and \$1,000,000 as '1000.' For physical damage coverages, report zero. See section 8 (page D-9) for differences in reporting by coverage and by transaction type.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

• Reserved (Positions 96-103)
Report blank.

## **Record Layout and Field Definitions - Premium Transactions**

• Zone Rating Code (Numeric Field: Positions 104-106)
For risks subject to zone rating report the zone rating code. Valid codes are shown on Attachment D-4 (page D-44). For vehicles not subject to zone rating report zero.

This field is optional for limited coded transactions.

• Cost Code (Numeric Field: Positions 107-109)
For physical damage coverages (excluding garage risks),
report the original cost new (OCN) in thousands of dollars.
For other coverages report zero.

For risks that are not rated according to original cost new, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

• Age Code (Numeric Field: Position 110)
For physical damage coverages (excluding garage risks)
report the age of the vehicle as follows:

#### Code Instruction\*

- 1 Current model year
- 2 First prior model year
- 3 Second prior model year
- 4 Third prior model year
- 5 Fourth prior model year
- 6 All other prior years

For other coverages report zero.

For risks that are not rated according to the age of the vehicle, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

Па	a	T	ъ	26		

\* See notation on Page i of this Plan regarding ISO's assertions of a copyright and proprietary interest in the underlined text.

## **Record Layout and Field Definitions - Premium Transactions**

• Building/Lot Code (Numeric Field: Position 111)

For Garage Risks, Other Than Collision, report the
Buildings and Open Lots Code. Valid codes are numbers 1
through 5 and are defined in Rule 94 of the Texas
Automobile Rules and Rating Manual as follows:

#### Code Instruction \*

- 1 Buildings
- 2 Standard Open Lots
- Non-Standard Open Lots
- 4 Miscellaneous Buildings
- 5 Miscellaneous Lots

For other risks report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

• Anti-Theft Discount (Numeric Field: Position 112)

For physical damage coverages, indicate whether the risk qualifies for an anti-theft discount using the appropriate code:

## Code Instruction

- 1 Discount is offered by the company and the risk qualifies as Category I.
- 2 Discount is offered by the company and the risk qualifies as Category II.
- 3 Discount is offered by the company and the risk qualifies as Category III.
- 4 Discount is offered by the company and the risk qualifies as Category IV.
- 5 Discount is offered by the company and the risk qualifies as Category V.
- 7 Discount is offered by the company and risk qualifies with some combination not elsewhere identified.
- 8 Discount is offered by the company for the coverage and the risk does not qualify.
- 9 Discount is not offered by the company for the coverage.

Categories of vehicles for the discount are defined as follows:

Torrog	Commorgial	Lines	D 20		

\* See notation on Page i of this Plan regarding ISO's assertions of a copyright and proprietary interest in the underlined text.

## **Record Layout and Field Definitions - Premium Transactions**

Category I contains one of (i) anti-hot-wiring circuit; (ii) alarm device that is activated by a door, hood or trunk sensor; (iii) window identification system; or (iv) an armored steel collar that covers the steering column.

Category II - Category I plus anti-hot-wiring circuit, automatic shutoff and reset, and two or more of (i) glass sensor; (ii) vibration sensor; (iii) motion sensor; and (iv) ultrasonic sensor.

Category III - Category II plus a hood restraint and backup battery.

Category IV - Category III plus a system using a passive method of activating or deactivating the alarm system.

Category  ${\tt V}$  - Category  ${\tt IV}$  plus a stolen vehicle recovery system.

Report zero for liability coverages.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

# • Policy Deductible Per Occurrence (Numeric Field: Positions 113-118)

Report the per occurrence deductible rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If no deductible applies, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

• Reserved (Positions 119-120)
Report blank.

## **Record Layout and Field Definitions - Premium Transactions**

• <u>Driving Record Surcharges (Points) (Numeric Field:</u> Positions 121-123)

For assigned risk business, (Type of Business Code 3), report the percentage surcharge based upon convictions and at-fault accidents. Valid codes are zero (no surcharge) through 999. For surcharges of 999 percent or greater, report 999. Exclude surcharges for an SR 22 certification. Refer to rule 42 of the Texas Automobile Rules and Rating Manual.

For all other business, report zero.

This field is optional for limited coded transactions.

• Transaction Effective Date (Numeric Field: Positions 124-129)

Report the transaction effective date in YYMMDD format. Run-off business, as defined in section 10, page D-12, may optionally be reported in YYMM00 format.

• Transaction Expiration Date (Numeric Field: Positions 130-135)

Report the transaction expiration date in YYMMDD format. Run-off business, as defined in section 10, page D-12, may optionally be reported in YYMM00 format.

- <u>Direct Written Premium (Numeric Field: Positions 136-145)</u> Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-148)
  Report blank.
- Exposure (Numeric Field: Positions 149-158)
  Report the total direct written exposure.

This field is optional for limited coded transactions.

• Reserved (Positions 159-161)
Report blank.

# **Record Layout and Field Definitions - Premium Transactions**

Schedule Rating Modification (Numeric Field: Positions 162-164)

Report the schedule rating adjustment used to rate the coverage. See section 25 (page 20) of the general reporting instructions for further instructions.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

- Reserved (Positions 165-270) Report blank.
- Reserved for Company Use (Positions 271-300)

# **Record Layout and Field Definitions - Loss Transactions**

• <u>Plan Code (Numeric Field: Positions 1-2)</u> Report the appropriate plan Code:

#### Code Report

- 26 Quarterly Commercial Automobile Experience Report;
- 28 Quarterly Commercial Automobile Experience Report; Special Excess
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)

  For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19)
  Indicate the type of policy. Valid codes are shown on Attachment D-1 (page D-41).
- Terrorism Coverage Code\* (Numeric Field: Position 20)
  Underlying Policy

Is coverage for certified acts of terrorism included in the underlying Code policy at no additional premium?

1 N (no)
3 Y (yes)

Terrorism Coverage\*\*

Code Coverage provided for acts of terrorism certified under the Terrorism Risk Insurance Act\*\*\*.

- \* Certified acts of terrorism refers to coverage provided under the Federal Terrorism Risk Insurance Act of 2002.
- \*\* A separate record is required to identify losses associated with terrorism coverage, apart from those associated with coverage in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following the

reporting	instructions	and	placing	zeros	in	the	premium	amount	field(s)
on the red	cord.								

#### **Record Layout and Field Definitions - Loss Transactions**

- Reserved (Position 21)
  Report blank.
- Type of Business (Numeric Field: Position 22)
  Indicate the type of business using the appropriate code:
  Code Type of Business
  - 1 Voluntary business written by a rate-regulated company.
  - 2 Voluntary business written by a County Mutual.
  - 3 Involuntary (Assigned Risk) business.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

• <u>Coverage Code (Numeric Field: Positions 23-25)</u>
Report the Coverage Code. Valid Codes are shown on Attachment D-2 (page D-42).

This field is optional for limited coded transactions.

• Subcoverage Code (Numeric Field: Positions 26-27)
For Coverage Codes 301 (Collision) and 302 (Other than Collision) report the Sub-Coverage Code. Valid codes are shown on Attachment D-3 (page D-43). For other coverages, report zero.

This field is optional for limited coded transactions.

• Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Territory (Numeric Field: Positions 31-32)
  Report the two digit territory code from the Texas
  Automobile Rules and Rating Manual. Territory should be
  reported for all coverages, even those coverages not
  currently subject to territorial rating except that
  territory is optional for the following:
  - all "non owned automobile" classifications;
  - all classifications for which exposure is not required; and
  - all zone rated classifications.

This field is optional for limited coded transactions.

## **Record Layout and Field Definitions - Loss Transactions**

- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the classification code. Valid codes are shown on Attachments D-7 through D-12 (pages D-47 through D-58).
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the record inception date in YYMM format.
- Dealers Collision Value Per Rating Unit (Numeric Field:
   <u>Positions 62-63)</u>
   If subcoverage code is 41 (Dealers Collision), report the value per rating unit in thousands of dollars. For values

value per rating unit in thousands of dollars. For values in excess of \$99,000, report 99. For other coverages report zero.

This field is optional for limited coded transactions.

- Reserved (Positions 64-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Policy Limit Per Occurrence (Numeric Field: Positions 80-

Report the per occurrence limit, rounded to the nearest thousands of dollars. For physical damage and other coverages for which no limit applies, report zero. See section 8 (page D-9) for differences in reporting by coverage and by transaction type.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

Policy Limit Per Claimant (Numeric Field: Positions 88-95)
For coverages other than physical damage, report the per claimant limit rounded to the nearest thousands of dollars. For example, report \$300,000 as '300' and \$1,000,000 as '1000.' For physical damage coverages, report zero. See section 8 (page D-9) for differences in reporting by coverage and by transaction type.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

• Reserved (Positions 96-103)

Report blank.

## **Record Layout and Field Definitions - Loss Transactions**

• Zone Rating Code (Numeric Field: Positions 104-106)
For risks subject to zone rating report the zone rating code. Valid codes are shown on Attachment D-4 (page D-44). For vehicles not subject to zone rating report zero.

This field is optional for limited coded transactions.

• Cost Code (Numeric Field: Positions 107-109)
For physical damage coverages (excluding garage risks),
report the original cost new (OCN) in thousands of dollars.
For other coverages report zero.

For risks that are not rated according to original cost new, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

• Age Code (Numeric Field: Position 110) For physical damage coverages (excluding garage risks) report the age of the vehicle as follows:

#### Code Instruction \*

- 1 Current model year
- First prior model year
- 3 Second prior model year
- 4 Third prior model year
- 5 Fourth prior model year
- 6 All other prior years

For other coverages report zero.

For risks that are not rated according to the age of the vehicle, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

### **Record Layout and Field Definitions - Loss Transactions**

Building/Lot Code (Numeric Field: Position 111) For Garage Risks, Other Than Collision, report the Buildings and Open Lots Code. Valid codes are numbers 1 through 5 and are defined in Rule 94 of the Texas Automobile Rules and Rating Manual as follows:

### Code Instruction \*

- Buildings
- Standard Open Lots
- Non-Standard Open Lots
- Miscellaneous Buildings
- Miscellaneous Lots

For other risks report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

Anti-Theft Discount (Numeric Field: Position 112) For physical damage coverages, indicate whether the risk qualifies for an anti-theft discount using the appropriate code:

### Code Instruction

- 1 Discount is offered by the company and the risk qualifies as Category I.
- Discount is offered by the company and the risk qualifies as Category II.
- Discount is offered by the company and the risk 3 qualifies as Category III.
- 4 Discount is offered by the company and the risk qualifies as Category IV.
- Discount is offered by the company and the risk 5 qualifies as Category V.
- 7 Discount is offered by the company and risk qualifies with some combination not elsewhere identified.
- Discount is offered by the company for the coverage and the risk does not qualify.
- Discount is not offered by the company for the coverage.

Categories of vehicles for the discount are defined as follows:

### **Record Layout and Field Definitions - Loss Transactions**

Category I contains one of (i) anti-hot-wiring circuit; (ii) alarm device that is activated by a door, hood or trunk sensor; (iii) window identification system; or (iv) an armored steel collar that covers the steering column.

Category II - Category I plus anti-hot-wiring circuit, automatic shutoff and reset, and two or more of (i) glass sensor; (ii) vibration sensor; (iii) motion sensor; and (iv) ultrasonic sensor.

Category III - Category II plus a hood restraint and backup battery.

Category IV - Category III plus a system using a passive method of activating or deactivating the alarm system.

Category  ${\tt V}$  - Category  ${\tt IV}$  plus a stolen vehicle recovery system.

Report zero for liability coverages.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

This field is optional for limited coded transactions.

• Deductible (Numeric Field: Positions 113-118)
Report the deductible applicable to the occurrence being reported, rounded to the nearest dollar. Deductibles of more than \$999,999 shall be reported as 999999. If no deductible applies, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

• Reserved (Positions 119-120)
Report blank.

### **Record Layout and Field Definitions - Loss Transactions**

• <u>Driving Record Surcharges (Points) (Numeric Field:</u>
Positions 121-123)

For assigned risk business, (Type of Business Code 3), report the percentage surcharge based upon convictions and at-fault accidents. Valid codes are zero (no surcharge) through 999. For surcharges of 999 percent or greater, report 999. Exclude surcharges for an SR 22 certification. Refer to rule 42 of the Texas Automobile Rules and Rating Manual.

For all other business, report zero.

This field is optional for limited coded transactions.

- Reserved (Positions 124-176)
  Report blank.
- Occurrence Date (Numeric Field: Positions 177-182)

  Report the date on which the loss occurred, in YYMMDD format. Run-off business, as defined in section 10, page D-12, may optionally be reported in YYMM00 format.
- <u>Catastrophe Code (Numeric Field: Positions 183-185)</u>
  If record relates to a catastrophe, report the three digit catastrophe code assigned by the Texas Department of Insurance. Otherwise, report zero.

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

• Type of Loss (Numeric Field: Positions 186-187)
Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment D-5 (page D-45).

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

- Claim Count (Numeric Field: Positions 188-189)
  Report the claim count.
- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, paid ALAE,
  outstanding ALAE, or salvage and subrogation amount
  consistent with the transaction identifier.
- Occurrence Identifier (Alphanumeric Field: Positions 199-212)

Report the occurrence identifier.

## **Record Layout and Field Definitions - Loss Transactions**

- Claimant Identifier (Alphanumeric Field: Positions 213-216) Report the claimant identifier.
- Accident State (Numeric Field: Positions 217-218)
  Report the two-digit state code in which the accident or loss occurred. Valid codes are shown on Attachment D-6 (page D-46).

The Run-Off Reporting Rule (see section 10, page D-12) is applicable to this element.

- Reserved (Positions 219-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

### **Definition**

Zone Rating Code is a three (3) digit code constructed as follows:

Location Code of Principal Garaging (1 digit)

+ Terminal Zone Code - Metropolitan or Regional Zone Code of farthest zone into which vehicle operates (2 digits)

Example - Dallas (Location) to Philadelphia (Terminal Zone): 130

### Note

Whenever a zone rating code is required to be reported, and the zone rating code was not used in rating, report 999.

# NON-OWNED AUTOMOBILES Classification Codes

Description	Exposure Reporting Basis	Code
Employers' Non-Ownership Liability (a)		
Risks Rated Based on Number of Employees	Employee Months	06600
Social Service Agency Risks (d)	Volunteer Months	0 <u>6670</u>
Coverage Extended to Employees' Individual Liability (d)	Employee Months	0 <u>6671</u>
Coverage Extended to Volunteers' Individual Liability (d)	Volunteer Months	0 <u>6672</u>
Other	Not Required	07000
Hired Automobiles - Excess Coverage (b)		
Commercial Vehicles - Excluding Truckers	Cost of Hire (\$100)	06611
Full Exposure (c)		
Commercial Vehicles - Excluding Truckers	Cost of Hire (\$100)	06610
Reduced Exposure (c)		
Commercial Vehicles - Truckers	Cost of Hire (\$100)	06613
Full Exposure (c)		
Commercial Vehicles - Truckers	Cost of Hire (\$100)	06612
Reduced Exposure (c)		
Public Automobiles	Cost of Hire (\$100)	05000
Other	Not Required	07000

### Notes:

- (a) "Now-Ownership Liability" is defined in Rule 23 of the Texas Automobile Rules and Rating Manual.
- (b) "Hired Automobiles" is defined in Rule 24 of the Texas Automobile Rules and Rating Manual.
- (c) "Reduced exposure" refers to situations where a certificate of automobile bodily injury and property damage liability insurance covering the interest of the named insured on a direct primary basis is provided by the owner of the vehicle. "Full exposure" refers to situations where no such certificate exists. Refer to Rule 24 B 6 of Section II of the Texas Automobile Rules and Rating Manual.
- (d) Not applicable for Liability Assigned Risks.

Commercial	Car Months	078	378	
All Other	Not Required	078	300	

- For Dealers, the exposure base for liability is "number of rating units", and for physical damage the exposure base is "\$100 of value".

  For Garages, the exposure base for liability is "\$100 of payroll", and for physical damage the exposure base is "\$100 of value".

  Refer to Section VI of the Texas Automobile Rules and Rating Manual for more details.
- # For liability coverages, the appropriate classification code for dealers will vary depending on whether the policy provides limited liability coverage, or unlimited liability coverage. For physical damage coverages, use the "limited" classification codes.

# **Quarterly Miscellaneous Commercial Experience Report**

# **Specific Instructions**

## **Specific Instructions - Premiums and Losses**

### 1. Report Description

Every Company licensed in Texas with direct commercial casualty premium or loss experience in Texas shall quarterly submit this report of premium, loss and loss adjustment expense experience.

### 2. Definitions of Miscellaneous Commercial Business

The Miscellaneous Commercial Experience Report is intended to capture miscellaneous commercial business not captured elsewhere under the Texas statistical plans.

For the purposes of the Miscellaneous Commercial Experience Report, "miscellaneous commercial business" includes all commercial business reported on lines 1, 2, 3, 4, 5.1, 5.2, 9, 12, 17.1, 17.2, 17.3, 18, 26, 27, 30 or 34 of the Annual Statement, Texas Page 14, except commercial business already reported under other parts of the Texas statistical plans.

Companies shall use their best judgment, and standard industry practices, in determining if business is "personal" or "commercial".

The Miscellaneous Commercial Experience Report also includes a category called "special risks" (subline 999). This subline should be used to report any commercial business that, due to its uniqueness, cannot reasonably be reported under any other report of this statistical plan. Companies who desire to report under subline 999 <u>must</u> request prior approval from the Texas Department of Insurance.

### **Specific Instructions - Premiums and Losses**

### 3. Sublines and Classifications

Subline codes shall be reported to broadly indicate the type of coverage provided. Classification codes shall be reported to provide information on the type of exposure. Valid subline codes are shown on Attachment E-2 (page E-22). Valid classification codes are shown for each subline on Attachments E-4 through E-8 (pages E-25 through E-29).

Companies that offer programs for insureds that are not classified should notify the Texas Department of Insurance of the types of coverage involved so that additional codes may be added as necessary.

### 4. Entry Into Claims Made Date

For claims made policies the entry into claims made date shall be reported. This date is the earliest accident date coverage is provided under a claims made policy. In most cases this date will be the date the insured first entered the claims made program.

For other than claims made policies, the entry into claims made date shall be reported as zero.

# 5. Run-Off Reporting Rule

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, retrospective premium adjustments, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For run-off transactions, certain elements as identified in the field definitions may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For run-off transactions, the classification codes shall, whenever possible, be reported in the detail otherwise required by this plan. When the prior classification code cannot be matched with a classification code currently contained in this plan, the company shall report this run-off business under a "special" run-off classification code of 99997. See Attachment E-8, page E-29.

For editing purposes, the record inception date reported on all run-off business shall be the inception date <u>originally</u> reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

Carriers that are unclear as to whether they should use the "special" run-off classification code in any specific instance should contact the Texas Department of Insurance.

This page reserved for future use.

### **Specific Instructions - Premiums**

# 6. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium or else the additional premium may be coded using class code 99999(see Attachment E-8, page E-29).

### 7. Premium Audit Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 5). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

The provisional or deposit premium shall wherever possible be coded in detail to the appropriate classification. When this is not possible provisional or deposit premium may be coded using class code 99998 (see Attachment E-8, page E-29). The premium amount on the deposit / provisional premium record shall be the amount or premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Audit adjustments shall be reported using the audit adjustment transaction code (16). The audit adjustment transaction record shall have the same codes as previously reported on the provisional or deposit premium transaction record except:

- (a) The accounting date shall be the date the adjustment was recorded on the company's books.
- (b) The premium amount shall reflect the audit adjustment.

### **Specific Instructions - Premiums**

## 8. Premium Retrospective Rating Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Retrospective adjustments to the provisional or deposit premium shall be reported using the retrospective adjustment transaction code (20). Whenever possible, premium adjustments shall be coded to the appropriate classification, coverage, etc. When this is not possible, premium adjustments may be coded using class code 99995 (see Attachment E-8, page E-29).

### **Specific Instructions - Losses**

## 9. Type of Loss Reporting

The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes. For example, if a tornado damages the roof of a building and rain subsequently enters the building through the roof causing further damage, all losses shall be coded as "wind & hail" and not water damage. Similarly, if cold weather causes a pipe to freeze which then bursts and causes damage, all losses shall be coded as "freeze."

Type of loss codes are shown on Attachment E-3, page E-23.

### 10. Report Date

For claims made policies the report date of the claim shall be reported. For other types of coverages the report date may be reported or else, at the Company's option reported zero.

The report date for claims made coverage shall be determined according to the definitions used to trigger coverage.

### **Record Layout and Field Definitions - Premium Transactions**

- Plan Code (Numeric Field: Positions 1-2)
  Report 04 to indicate Quarterly Miscellaneous Commercial
  Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)
  For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19)
  Indicate the type of policy. Valid codes are shown on Attachment E-1 (page E-21).
- Terrorism Coverage Code\* (Numeric Field: Position 20)
  Underlying Policy
  (Applicable to Sublines 920, 950, 960 and 970 only)

Is coverage for certified acts of terrorism included in the underlying policy at no

Code additional premium?

1 N (no)

3 Y (yes)

Terrorism Coverage\*\*

Code Coverage provided for acts of terrorism 7 certified under the Terrorism Risk Insurance Act of 2002\*\*\*.

• Terrorism Coverage Code\* (Numeric Field: Position 20)
Underlying Policy
(Applicable to Subline 999 (Special Risks) only)

Is Coverage for certified acts of terrorism included in the underlying policy at no
Code Additional premium?
3 Y (yes)

Code Coverage is provided for acts of terrorism certified under the Terrorism Risk Insurance Act of 2002\*\*\*.

Code Certified Acts Coverage not applicable (Codes 3 or 7 do not apply to the record

- Certified Acts of Terrorism refers to coverage provided under the Federal Terrorism Rick Insurance Act of 2002.
- \*\* A separate record is required to identify premiums associated with terrorism coverage, apart from those associated with coverages in the underlying policy.

being reported)

- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following the reporting instructions and placing zeros in the premium amount field(s) on the record.
- Reserved (Positions 21-22)
  Report blank.
- <u>Subline (Numeric Field: Positions 23-25)</u>
  Report the Subline Code. Valid Codes are shown on Attachment E-2 (page E-22).

The Run-Off Reporting Rule (see section 5, page E-3) is applicable to this element.

• Type of Business (Numeric Field: Position 26)
Indicate the type of business using the appropriate code.
Code Type of Business

- 1 Claims Made (Regular)
- 2 Claims Made (Tail)
- 3 Occurrence
- 9 Other
- Reserved (Position 27)
  Report blank.

### **Record Layout and Field Definitions - Premium Transactions**

• Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Reserved (Positions 31-32)
  Report blank.
- Classification (Numeric Field: Positions 33-37)
  Report the five digit classification code. Valid codes are shown on Attachment E-4 (page E-25) for inland marine, Attachment E-5 (page E-26) for burglary & theft, Attachment E-6 (page E-27) for glass, Attachment E-7 (page E-28) for boiler & machinery, and Attachment E-8 (page E-29) for special risks and miscellaneous classifications.
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-99)
  Report blank.
- Entry into Claims Made Date (Numeric Field: Positions 100-103)
  For "regular" and "tail" claims made policies report the entry into claims made date in YYMM format. For other types of policies report zero.

The Run-Off Reporting Rule (see section 5, page E-3) is applicable to this element.

• Reserved (Positions 104-123)
Report blank.

### **Record Layout and Field Definitions - Premium Transactions**

- Transaction Effective Date (Numeric Field: Positions 124-129)
  Report the transaction effective date in YYMMDD format. Run-off business as defined in section 5 (page E-3) may optionally be reported in YYMM00 format.
- Transaction Expiration Date (Numeric Field: Positions 130-135)
  Report the transaction expiration date in YYMMDD format. Run-off business as defined in section 5 (page E-3) may optionally be reported in YYMM00 format.
- <u>Direct Written Premium (Numeric Field: Positions 136-145)</u> Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

### **Record Layout and Field Definitions - Loss Transactions**

- Plan Code (Numeric Field: Positions 1-2)
  Report 04 to indicate Quarterly Miscellaneous Commercial
  Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)

  For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19)
  Indicate the type of policy. Valid codes are shown on Attachment E-1 (page E-21).
- Terrorism Coverage Code\* (Numeric Field: Position 20)
  Underlying Policy
  (Applicable to Sublines 920, 950, 960 and 970 only)

Is coverage for certified acts of terrorism included in the underlying Code policy at no additional premium?

1 N (no)
3 Y (yes)

Terrorism Coverage\*\*

Code 7

Coverage provided for acts of terrorism certified under the Terrorism Risk Insurance Act of 2002\*\*\*.

Terrorism Coverage Code\* (Numeric Field: Position 20) Underlying Policy

(Applicable to Subline 999 (Special Risks) only)

Is Coverage for certified acts of Terrorism included in the underlying Policy at no additional premium?

3 Y (Yes)

Code

Code Coverage provided for acts of terrorism certified under the Terrorism Risk 7 Insurance Act of 2002\*\*\*.

Certified Acts Coverage not applicable Code (Codes 3 or 7 do not apply to the record [blank] being reported)

- Certified Acts of Terrorism refers to coverage provided under the Federal Terrorism Rick Insurance Act of 2002.
- \*\* A separate record is required to identify premiums associated with terrorism coverage, apart from those associated with coverages in the underlying policy.
- \*\*\* Companies that provide coverage under the Terrorism Risk Insurance Act for no additional premium may report this coverage by following the reporting instructions and placing zeros in the premium amount field(s) on the record.
- Reserved (Positions 21-22) Report blank.
- Subline (Numeric Field: Positions 23-25) Report the Subline Code. Valid Codes are shown on Attachment E-2 (page E-22).

The Run-Off Reporting Rule (see section 5, page E-3) is applicable to this element.

Type of Business (Numeric Field: Position 26) Indicate the type of business using the appropriate code. Code Type of Business

- Claims Made (Regular)
  - Claims Made (Tail)
  - Occurrence
  - Other
- Reserved (Position 27) Report blank.

### **Record Layout and Field Definitions - Loss Transactions**

• Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Reserved (Positions 31-32)
  Report blank.
- Classification (Numeric Field: Positions 33-37)
  Report the five digit classification code. Valid codes are shown on Attachment E-4 (page E-25) for inland marine, Attachment E-5 (page E-26) for burglary & theft, Attachment E-6 (page E-27) for glass, Attachment E-7 (page E-28) for boiler & machinery, and Attachment E-8 (page E-29) for special risks and miscellaneous classifications.
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-99)
  Report blank.
- Entry into Claims Made Date (Numeric Field: Positions 100-103)
  For "regular" and "tail" claims made policies report the entry into claims made date in YYMM format. For other types of policies report zero.

The Run-Off Reporting Rule (see section 5, page E-3) is applicable to this element.

• Reserved (Positions 104-176)
Report blank.

### **Record Layout and Field Definitions - Loss Transactions**

- Occurrence Date (Numeric Field: Positions 177-182)

  Report the date on which the loss occurred in YYMMDD format.

  Run-off business as defined in section 5 (page E-3) may optionally be reported in YYMM00 format.
- Reserved (Positions 183-185)
  Report blank.
- Type of Loss (Numeric Field: Positions 186-187)

  Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment E-3 (page E-23).

The Run-Off Reporting Rule (see section 5, page E-3) is applicable to this element.

- <u>Claim Count(Numeric Field: Positions 188-189)</u> Report the claim count.
- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, paid ALAE, outstanding ALAE, or salvage and subrogation amount consistent with the Transaction Identifier.
- Occurrence Identifier (Alphanumeric Field: Positions 199-212)
  Report the occurrence identifier.
- Reserved (Positions 213-218)
  Report blank.
- Report Date (Numeric Field: Positions 219-224)
  Report the date on which the loss was reported in YYMMDD format.
  Run-off business as defined in section 5 (page E-3) may optionally be reported in YYMM00 format.

The Run-Off Reporting Rule (see section 5, page E-3) is applicable to this element.

- Reserved (Positions 225-270)
  Report blank.

# Quarterly Fidelity & Surety Experience Report Specific Instructions

### **Specific Instructions - Premiums and Losses**

### 1. Report Description

Every company licensed in Texas with direct fidelity & surety premium or loss experience in Texas shall quarterly submit this report of premium and loss experience.

### 2. Definition of Fidelity & Surety Business

For the purposes of the Quarterly Fidelity & Surety Experience Report, "fidelity & surety business" includes all business reported on lines 5.2, 23 and 24 of the Annual Statement, Texas Page 14, except:

- Experience that is reported by the company under the Texas Statistical Plan for Residential Risks;
- Experience that is reported by the company under the Texas Statistical Plan for Businessowners; and
- Experience that is reported by the company under the Texas Statistical Plan for Property.

For divisible premium package policies, only the fidelity & surety portion of experience shall be reported as "Fidelity & Surety."

# 3. Run-Off Reporting Rule

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, retrospective premium adjustments, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For run-off transactions, certain elements as identified in the field definitions may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For run-off transactions, the classification codes shall, whenever possible, be reported in the detail otherwise required by this plan. When the prior classification code cannot be matched with a classification code currently contained in this plan, the company shall report this run-off business under a "special" run-off classification code of 99997. See Attachment F-8, page F-65.

For editing purposes, the record inception date reported on all run-off business shall be the inception date <u>originally</u> reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

Carriers that are unclear as to whether they should use the "special" run-off classification code in any specific instance should contact the Texas Department of Insurance.

### 4. Sublines and Classifications

Subline codes shall be reported to broadly indicate the type of coverage provided. Classification codes shall be reported to provide information on the type of exposure. Valid subline codes are shown on Attachment F-2 (page F-26). Valid classification codes are shown for each subline on Attachment F-6 (pages F-35 through F-44) for fidelity, Attachment F-7 (pages F-45 through F-64) for surety, and Attachment F-8 (page F-65) for miscellaneous classifications.

Companies that offer programs for insureds that are not classified should notify the Texas Department of Insurance of the types of coverage involved so that additional codes may be added as necessary.

### 5. Limited Reporting

Premium and loss transactions for certain classifications may be reported on a limited coded basis. These classifications include minimum premiums, classifications subject to the run-off reporting rule (see section 3, page F-2), and other classifications specifically identified as limited coded on Attachments F-8. For limited reporting records, the following data elements <u>only</u> are required to be reported. At the reporting company's option, the other elements shall be reported zero or with entries consistent with the instructions.

### Premium Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Subline Code
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Transaction Effective Date
- Transaction Expiration Date
- Direct Written Premium

### Loss Transactions

- Plan Code
- NAIC Company Code
- MGA Code
- Accounting Date
- Record Type
- Transaction Identifier
- Policy Type
- Subline Code
- Annual Statement Line of Business
- Classification
- Record Inception Date
- Policy Identifier
- Type of Loss
- Claim Count
- Loss Amount
- Occurrence Identifier
- Report Date

If a reporting company desires to report other types of business using limited coding, they should contact the Texas Department of Insurance for further instructions.

## **Quarterly Fidelity & Surety Experience Report**

This page reserved for future use.

## **Quarterly Fidelity & Surety Experience Report**

This page reserved for future use.

### **Specific Instructions - Premiums**

### 6. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium, or else the additional premium may be coded using class code 99999 (see Attachment F-8, page F-65).

## 7. Exposure Reporting

Exposure is defined as amount of coverage. In situations where multiple companies participate on a bond, report only the amount of insurance provided by the reporting company. Do not report the full amount of coverage on the bond.

### **Specific Instructions - Premiums**

## 8. Premium Audit Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

The provisional or deposit premium shall wherever possible be coded in detail to the appropriate classification. When this is not possible provisional or deposit premium may be coded using class code 99998 (see Attachment F-8, page F-65). The premium amount on the deposit / provisional premium record shall be the amount or premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Audit adjustments shall be reported using the audit adjustment transaction code (16). The audit adjustment transaction record shall have the same codes as previously reported on the provisional or deposit premium transaction record except:

- (a) The accounting date shall be the date the adjustment was recorded on the company's books.
- (b) The premium amount and exposure amount, for Surety, shall reflect the audit adjustment.

### **Specific Instructions - Premiums**

### 9. Premium Retrospective Rating Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Retrospective adjustments to the provisional or deposit premium shall be reported using the retrospective adjustment transaction code (20). Whenever possible, premium adjustments shall be coded to the appropriate classification, coverage, etc. When this is not possible, premium adjustments may be coded using class code 99995 (see Attachment F-8, page F-65).

## **Quarterly Fidelity & Surety Experience Report**

This page reserved for future use.

## **Specific Instructions - Losses**

#### 10. Type of Loss Reporting

The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes.

Type of loss codes are shown on Attachment F-5, page F-34.

#### 11. **Report Date**

For loss transactions, the report date of the claim shall be reported.

The report date shall be the date the occurrence was reported to the company, according to standard company practices.

## **Quarterly Fidelity & Surety Experience Report**

This page reserved for future use.

- Plan Code (Numeric Field: Positions 1-2) Report 06 to indicate Quarterly Fidelity & Surety Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7) Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10) For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14) Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15) Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17) Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19) Indicate the type of policy. Valid codes are shown on Attachment F-1 (page F-25).

The Run-Off Reporting Rule (see section 3, page F-2) is applicable to this element.

- Reserved (Positions 20-22) Report blank.
- Subline (Numeric Field: Positions 23-25) Report the Subline Code. Valid Codes are shown on Attachment F-2 (page F-26).

The Run-Off Reporting Rule (see section 3, page F-2) is applicable to this element.

• Form of Fidelity Coverage Code (Numeric Field: Positions 26-27)

For Subline Code 001 (Fidelity), indicate the form of coverage provided using the appropriate code. Valid codes are shown on Attachment F-3 (pages F-27 through F-32).

For Subline Code 002 (Surety), report zero.

This field is optional for limited coded transactions.

• Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Reserved (Positions 31-32)
  Report blank.
- Classification (Numeric Field: Positions 33-37)
  Report the five digit classification code. Valid codes are shown on Attachment F-6 (pages F-35 through F-44) for fidelity, Attachment F-7 (pages F-45 through F-64) for surety, and Attachment F-8 (page F-65) for miscellaneous classifications.
- Type of Contract Bond (Numeric Field: Position 38)

  For subline 002 (surety), report the type of contract bond associated with classification codes 006XX, 007XX, 008XX, 00AXX, and 00BXX only. Valid codes are shown on Attachment F-4 (page F-33).

For subline code 001 (fidelity), and other classification codes under subline code 002 (surety), report zero.

This field is optional for limited coded transactions.

• Small Business Indicator (Numeric Field: Position 39)
For subline 002 (surety), report whether the principal has over \$1 million in revenue as of the last fiscal year's end for contract surety bonds with classification codes 006XX, 007XX, 008XX, 00AXX, and 00BXX only. Valid codes are shown on Attachment F-9 (page F-66).

For subline code 001 (fidelity), and other classification codes under subline code 002 (surety), report zero.

• Expedited Underwriting Program (Numeric Field: Position 40)
For subline 002 (surety), report whether the principal
participated in an Expedited Underwriting Program (EUP) for
contract surety bonds with classification codes 006XX,
007XX, 008XX, 00AXX, and 00BXX only. The EUP is a program
by which a bond (usually the first bond written by the
surety for the principal) is underwritten in a streamlined
process by which document requirements are waived or
reduced (for example, financial statements). Valid codes
are shown on Attachment F-10 (page F-67).

For subline code 001 (fidelity), and other classification codes under subline code 002 (surety), report zero.

- Reserved (Positions 41-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- <u>Policy Identifier (Alphanumeric Field: Positions 66-79)</u>
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-123)
  Report blank.
- Transaction Effective Date (Numeric Field: Positions 124-129)
  Report the transaction effective date in YYMMDD format.
  Run-off business as defined in section 3 (page F-2) may optionally be reported in YYMM00 format.
- Transaction Expiration Date (Numeric Field: Positions 130-135)
  Report the transaction expiration date in YYMMDD format.
  Run-off business as defined in section 3 (page F-2) may optionally be reported in YYMM00 format.

- Direct Written Premium (Numeric Field: Positions 136-145) Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-148) Report blank.
- Exposure (Numeric Field: Positions 149-158) For Subline Code 002 (Surety), report the total direct written exposure.

For Subline Code 001 (Fidelity), report zero.

This field is optional for limited coded transactions.

- Reserved (Positions 159-161) Report blank.
- Schedule Rating Modification (Numerical Field: Positions 162-164)

Report the schedule rating adjustment used to rate the coverage. See section 25 (page 20) of the general reporting instructions for further instructions.

The Run-Off Reporting Rule (see section 3, page F-2) is applicable to this element.

- Reserved (Positions 165-270) Report blank.
- Reserved for Company Use (Positions 271-300)

- Plan Code (Numeric Field: Positions 1-2) Report 06 to indicate Quarterly Fidelity & Surety Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7) Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10) For County Mutuals fronting for one or more MGA's, report the permanent unique three-digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14) Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15) Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17) Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Policy Type (Numeric Field: Positions 18-19) Indicate the type of policy. Valid codes are shown on Attachment F-1 (page F-25).

The Run-Off Reporting Rule (see section 3, page F-2) is applicable to this element.

- Reserved (Positions 20-22) Report blank.
- Subline (Numeric Field: Positions 23-25) Report the Subline Code. Valid Codes are shown on Attachment F-2 (page F-26).

The Run-Off Reporting Rule (see section 3, page F-2) is applicable to this element.

Form of Fidelity Coverage Code (Numeric Field: Positions

For Subline Code 001 (Fidelity), indicate the form of coverage provided using the appropriate code. Valid codes are shown on Attachment F-4 (pages F-27 through F-32).

For Subline Code 002 (Surety), report zero.

This field is optional for limited coded transactions.

Annual Statement Line of Business (Numeric Field: Positions 28-30)

Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).

- Reserved (Positions 31-32) Report blank.
- Classification (Numeric Field: Positions 33-37) Report the five digit classification code. Valid codes are shown on Attachment F-6 (pages F-35 through F-44) for fidelity, Attachment F-7 (pages F-45 through F-64) for surety, and Attachment F-8 (page F-65) for miscellaneous classifications.
- Type of Contract Bond (Numeric Field: Position 38) For subline 002 (surety), report the type of contract bond associated with classification codes 006XX, 007XX, 008XX, 00AXX, and 00BXX only. Valid codes are shown on Attachment F-4 (page F-33).

For subline code 001 (fidelity), and other classification codes under subline code 002 (surety), report zero.

This field is optional for limited coded transactions.

Small Business Indicator (Numeric Field: Position 39) For subline 002 (surety), report whether the principal has over \$1 million in revenue as of the last fiscal year's end for contract surety bonds with classification codes 006XX, 007XX, 008XX, 00AXX, and 00BXX only. Valid codes are shown on Attachment F-9 (page F-66).

For subline code 001 (fidelity), and other classification codes under subline code 002 (surety), report zero.

Expedited Underwriting Program (Numeric Field: Position 40)
For subline 002 (surety), report whether the principal
participated in an Expedited Underwriting Program (EUP) for
contract surety bonds with classification codes 006XX,
007XX, 008XX, 00AXX, and 00BXX only. The EUP is a program
by which a bond (usually the first bond written by the
surety for the principal) is underwritten in a streamlined
process by which document requirements are waived or
reduced (for example, financial statements). Valid codes
are shown on Attachment F-10 (page F-67).

For subline code 001 (fidelity), and other classification codes under subline code 002 (surety), report zero.

- Reserved (Positions 41-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- <u>Policy Identifier (Alphanumeric Field: Positions 66-79)</u>
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-185) Report blank.
- Type of Loss (Numeric Field: Positions 186-187)
  Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment F-5 (page F-34).
- <u>Claim Count (Numeric Field: Positions 188-189)</u> Report the claim count.
- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, or salvage and subrogation amount consistent with the transaction identifier.

- Occurrence Identifier (Alphanumeric Field: Positions 199-212)
  - Report the occurrence identifier.
- Reserved (Positions 213-218) Report blank.
- Report Date (Numeric Field: Positions 219-224) Report the date on which the loss was reported in YYMMDD format. Run-Off business as defined in section 3 (page F-2) may optionally be reported in YYMM00 format.
  - The Run-Off Reporting Rule, (see section 3, page F-2), is applicable to this element.
- Reserved (Positions 225-270) Report blank.
- Reserved for Company Use (Positions 271-300)

# Quarterly Miscellaneous Personal Experience Report Specific Instructions

#### **Specific Instructions - Premiums and Losses**

#### 1. Report Description

Every Company licensed in Texas with direct miscellaneous personal premium or loss experience in Texas shall quarterly submit this report of premium, loss and loss adjustment expense experience.

#### 2. Definitions of Miscellaneous Personal Business

The Miscellaneous Personal Experience Report is intended to capture miscellaneous personal business not captured elsewhere under the Texas statistical plans.

For the purposes of the Miscellaneous Personal Experience Report, "miscellaneous personal business" includes all personal business reported on lines 1, 2, 3, 4, 9, 12, 17.1, 17.2, 17.3, 18, 26, 30 or 34 of the Annual Statement, Texas Page 14, except personal business already reported under other parts of the Texas statistical plans.

Companies shall use their best judgment, and standard industry practices, in determining if business is "personal" or "commercial".

The Miscellaneous Personal Experience Report also includes a category called "special risks" (subline 999). This subline should be used to report any miscellaneous personal business that, due to its uniqueness, cannot reasonably be reported under any other report of this statistical plan. Companies who desire to report under subline 999 <u>must</u> request prior approval from the Texas Department of Insurance.

#### **Specific Instructions - Premiums and Losses**

#### 3. Sublines and Classifications

Subline codes shall be reported to broadly indicate the type of coverage provided. Classification codes shall be reported to provide information on the type of exposure. Valid subline codes are shown on Attachment G-1 (page G-21). Valid Classification Codes are shown on Attachment G-3 (page G-23).

Companies that offer programs for insureds that are not classified should notify the Texas Department of Insurance of the types of coverage involved so that additional codes may be added as necessary.

#### 4. Run-Off Reporting Rule

"Run-off" transactions include subsequent paid and outstanding loss transactions on policies that were effective prior to January 1, 1995, retrospective premium adjustments, and other transactions where the initial premium transaction record was reported prior to January 1, 1995.

For run-off transactions, certain elements as identified in the field definitions may, at the company's option, be reported zero, or else with entries consistent with the instructions.

For run-off transactions, the classification codes shall, whenever possible, be reported in the detail otherwise required by this plan. When the prior classification code cannot be matched with a classification code currently contained in this plan, the company shall report this run-off business under a "special" run-off classification code of 99997. See Attachment G-3, page G-23.

For editing purposes, the record inception date reported on all run-off business shall be the inception date <u>originally</u> reported on the premium transaction record. This will be a date prior to January 1, 1995. If the record inception date is unknown, the company shall report any date prior to January 1, 1995.

Carriers that are unclear as to whether they should use the "special" run-off classification code in any specific instance should contact the Texas Department of Insurance.

#### **Quarterly Miscellaneous Personal Experience Report**

This page reserved for future use.

This page reserved for future use.

#### **Specific Instructions - Premiums**

### 5. Premium Reporting

Premium is to be reported excluding policy and membership fees.

For policies subject to a minimum premium, the additional premium resulting from the application of the minimum shall, whenever possible, be coded to the appropriate classification, coverage etc. For policies that involve multiple coverages or classifications, the reporting company shall determine a reasonable method to allocate the additional premium or else the additional premium may be coded using class code 99999(see Attachment G-3, page G-23).

#### 6. Premium Audit Adjustments

The provisional or deposit premium shall be reported using the new or renewal transaction codes as appropriate (see Attachment 1 of the general reporting instructions, page 27). This premium amount shall be the amount of premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

The provisional or deposit premium shall wherever possible be coded in detail to the appropriate classification. When this is not possible provisional or deposit premium may be coded using class code 99998 (see Attachment G-3, page G-23). The premium amount on the deposit / provisional premium record shall be the amount or premium recorded by the reporting Company for the period coverage is provided. The transaction effective dates and expiration dates shall reflect the period the provisional or deposit premium applies.

Audit adjustments shall be reported using the audit adjustment transaction code (16). The audit adjustment transaction record shall have the same codes as previously reported on the provisional or deposit premium transaction record except:

- (a) The accounting date shall be the date the adjustment was recorded on the company's books.
- (b) The premium amount shall reflect the audit adjustment.

This page reserved for future use.

# **Specific Instructions - Losses**

# 7. Type of Loss Reporting

The type of loss code should reflect the original and proximate cause of loss and not any ensuing causes. For example, if a tornado damages the roof of a building and rain subsequently enters the building through the roof causing further damage, all losses shall be coded as "wind & hail" and not water damage. Similarly, if cold weather causes a pipe to freeze which then bursts and causes damage, all losses shall be coded as "freeze."

Type of loss codes are shown on Attachment G-2, page G-22.

This page reserved for future use.

### **Record Layout and Field Definitions - Premium Transactions**

- Plan Code (Numeric Field: Positions 1-2)
  Report 05 to indicate Quarterly Miscellaneous Personal
  Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)
  For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 1 to indicate a premium record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Reserved (Positions 18-22)
  Report blank.
- <u>Subline (Numeric Field: Positions 23-25)</u>
  Report the Subline Code. Valid Codes are shown on Attachment G-1 (page G-21).

The Run-Off Reporting Rule (see section 4, page G-2) is applicable to this element.

- Reserved (Positions 26-27)
  Report blank.
- Annual Statement Line of Business (Numeric Field: Positions 28-30)

  Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).
- Reserved (Positions 31-32)
  Report blank.

# **Record Layout and Field Definitions - Premium Transactions**

- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the five digit classification code. Valid codes are shown on Attachment G-3 (page G-23).
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-123)
  Report blank.
- Transaction Effective Date (Numeric Field: Positions 124-129)
  Report the transaction effective date in YYMMDD format.
  Run-off business as defined in section 4 (page G-2) may optionally be reported in YYMM00 format.
- Transaction Expiration Date (Numeric Field: Positions 130-135)

  Report the transaction expiration date in YYMMDD format.

  Run-off business as defined in section 4 (page G-2) may optionally be reported in YYMM00 format.
- <u>Direct Written Premium (Numeric Field: Positions 136-145)</u> Report the total direct written premium excluding policy and membership fees.
- Reserved (Positions 146-270)
  Report blank.
- Reserved for Company Use (Positions 271-300)

  Report 05 to indicate Quarterly Miscellaneous Personal
  Experience Report.
- NAIC Company Code (Numeric Field: Positions 3-7)
  Report the five digit NAIC code.
- MGA Code (Numeric Field: Positions 8-10)
  For County Mutuals fronting for one or more MGA's, report the permanent unique three digit MGA code for the MGA being reported. Other companies shall report zero. See section 11 (page 11) of the general reporting instructions for more detailed information.
- Accounting Date (Numeric Field: Positions 11-14)
  Report the accounting date in YYMM format.
- Record Type (Numeric Field: Position 15)
  Report 2 to indicate a loss record.
- Transaction Identifier (Numeric Field: Positions 16-17)
  Indicate the type of transaction. Valid codes are shown on Attachment 1 of the general reporting instructions (page 27).
- Reserved (Positions 18-22)
  Report blank.
- <u>Subline (Numeric Field: Positions 23-25)</u>
  Report the Subline Code. Valid Codes are shown on Attachment G-1 (page G-21).

The Run-Off Rule (see section 4, page G-2) is applicable to this element.

- Reserved (Positions 26-27)
  Report blank.
- Annual Statement Line of Business (Numeric Field: Positions 28-30)
  Report the Annual Statement Line of Business of the transaction. Valid codes are shown on Attachment 2 of the general reporting instructions (page 28).
- Reserved (Positions 31-32)
  Report blank.

# **Record Layout and Field Definitions - Loss Transactions**

- <u>Classification (Numeric Field: Positions 33-37)</u>
  Report the five digit classification code. Valid codes are shown on Attachment G-3 (page G-23).
- Reserved (Positions 38-57)
  Report blank.
- Record Inception date (Numeric Field: Positions 58-61)
  Report the inception date in YYMM format.
- Reserved (Positions 62-65)
  Report blank.
- Policy Identifier (Alphanumeric Field: Positions 66-79)
  Report the policy identifier. Valid codes are any 14 digit alphanumeric string that uniquely identifies the policy.
- Reserved (Positions 80-176)
  Report blank.
- Occurrence Date (Numeric Field: Positions 177-182)
  Report the date on which the loss occurred in YYMMDD format. Run-off business as defined in section 4 (page G-2) may optionally be reported in YYMM00 format.
- Reserved (Positions 183-185)
  Report blank.
- Type of Loss (Numeric Field: Positions 186-187)
  Report the type of loss code associated with the claim being reported. Valid codes are shown on Attachment G-2 (page G-22).

The Run-Off Reporting Rule (see section 4, page G-2) is applicable to this element.

- Claim Count(Numeric Field: Positions 188-189)
  Report the claim count.
- Loss Amount (Numeric Field: Positions 190-198)
  Report the paid loss, outstanding loss, paid ALAE,
  outstanding ALAE, or salvage and subrogation amount
  consistent with the Transaction Identifier.

# **Record Layout and Field Definitions - Loss Transactions**

- Occurrence Identifier (Alphanumeric Field: Positions 199-Report the occurrence identifier.

D. PLACE CODE	H-47 – H-49

#### 1. SCOPE OF THE PLAN

This plan applies to policies effective on or after September 1, 1987. It applies to Policies providing Fire, Extended Coverage and Other Allied Lines on Farms and Ranches.

This plan is applicable to direct business written by the carrier. Necessary instructions for the recording of the captioned lines of business are given so that experience may be available in the detail required for reporting.

This plan is in loose leaf form and, as pages are revised or reprinted, all carriers will automatically receive these revised pages, which will have the changes indicated in the margins. In the absence of supplemental instructions, revised pages are applicable to all new and renewal policies with effective dates on and after the date indicated in the lower right hand corner of the reprinted pages.

The Statistical Plan is printed in the following major divisions:

- (a) Section A Instructions pertaining to recording of business on carriers' records and reporting of experience.
- (b) Section B Codes

#### 2. METHODS OF RECORDING AND COMPILING EXPERIENCE

This plan is designed to develop experience on a Calendar/Accident Year basis. Such experience furnishes a comparison of the incurred losses on accidents or occurrences which took place in a given 12 month period with the amounts of insurance and premiums earned in the same period.

#### 3. RECORDING OF EXPERIENCE

Carriers may use any procedure for the recording of experience, including any type of record form convenient to their statistical or accounting procedure and any codes other than those set forth in this plan, provided only that experience can be reported by the carrier within the required time and in accordance with the requirements for the reporting of experience set forth herein. However, the adoption of the procedures outlined in this plan, together with the codes recited herein, should promote accuracy and save labor in the preparation of statistical data for the filing of experience.

#### 4. UNIFORM METHOD OF REPORTING EXPERIENCE

Every carrier shall report its experience in accordance with instructions issued by the Texas Department of Insurance and shall use the codes set forth in this plan in making such reports of experience. Each carrier shall report its experience in the detail required, and shall forward the executed affidavit, attesting to the accuracy and completeness of all experience reports submitted, shall be filed in accordance with instructions.

#### 5. REINSURANCE

The experience is to be reported on direct business only. Therefore, the reports of experience shall not include premiums received from or losses paid to other carriers on account of reinsurance assumed by the reporting carrier; nor shall any deductions be made by the reporting carrier for premiums ceded to or for losses recovered from other carriers on account of reinsurance ceded.

#### 6. AMOUNTS OF INSURANCE - PREMIUMS AND LOSSES

Amounts of insurance (limits of liability) shall be shown on both premium and loss records. Amount of insurance (limits of liability) shall be recorded to the nearest thousand dollars of coverage of the original policy. Policies for amounts under \$1,500 will be recorded as 01.

For pro rata or flat cancellations, record the same amount of insurance originally recorded for the policy being canceled.

For Farm & Ranch policies, the amount of insurance on each dwelling and each personal property are to be recorded separately. When additional coverage such as outbuildings, TV antennas or trees and shrubs is added, the amount of insurance for the dwelling should be increased to reflect the increased liability. When outbuildings cover for different perils than the main dwelling, code as separate item. "Amount of Insurance should not be recorded for Rent insurance".

#### 7. PREMIUMS

Premiums on direct business shall be identified as premiums written, cancellations, or as all other additional and return premium endorsements by the Record Type Codes set forth in this plan. Such premium entries shall also be identifies by the other statistical codes shown in Section B of this plan.

Premiums for additional coverages on outbuildings, trees and shrubs should be added to premiums of principal dwelling with all coding based on that for the principal dwelling. Premiums for additional coverage on personal property to supplement the basic personal property coverage will be added to that for the basic personal property coverage if the premiums apply to the original policy at inception. The amount of insurance will be that for the basic personal property policy.

#### 8. EFFECTIVE AND EXPIRATION DATES

On premium records for new business and renewals, the effective month, day and year and expiration month and year of the policy must be shown. For cancellations (pro rata, or flat cancellation), the effective month and year of the cancellation as well as the expiration month and year of the policy being canceled shall be shown.

On loss records, accident month, day and year shall be shown in the same field as the effective date for premium entries.

# 9. CANCELLATIONS

For a flat cancellation (effective as of the inception date of the policy), the coding of the cancellation entry must be identical with the original entry, except for the Record Type.

For pro rata cancellations, the coding of the cancellation entry must be identical with the original entry except for the Record Type and effective month and year which shall be the effective date of the cancellation.

#### 10. CHANGES BY ENDORSEMENT

If an endorsement effective as of inception date of the policy changes coding conditions or premium amount, the original entry should be reversed and a new corrected entry submitted. An additional and return premium endorsement effective after inception date of the policy should be coded Record Type 02 and contain the same coding as an original Record Type 01 entry.

#### 11. LOSSES EXCLUSIVE OF LOSS ADJUSTMENT EXPENSE

Losses are to be reported net as to recoveries under salvage, subrogation, and other recoveries (not reinsurance).

Each loss entry shall be identified by the proper Kind Code and show the appropriate Accident Month, Day and Year and, except as otherwise provided, the same statistical codes that were used to record the premium entry for the coverage under which the loss was incurred. In addition, each Loss entry shall show the Number of claims, Cause of Loss, and Type of Loss Code.

Loss adjustment expenses are not to be reported.

#### 12. NUMBER OF CLAIMS

Cases to be counted as claims shall be only those in connection with which a loss payment has been made or a loss reserve established. No case shall be counted as a claim if it involves only Loss Adjustment Expenses. A claim partly paid and partly outstanding shall be counted only once (but may be counted as either paid or outstanding). A claim on which more than one payment is made shall be counted only once.

A case involving a loss payment or the establishment of a loss reserve under several separate differently coded statistical entries shall have a claim count for each statistical entry.

Salvage, subrogation and other recoveries (not reinsurance) shall be recorded as a credit to claim count only if the recovery is the total cost of the case.

A claim closed without a loss payment shall not be counted as a claim.

#### 13. ADJUSTMENTS

Adjustments of errors in the original coding are to be accomplished by making a reversal of the original entry and by making a new entry showing the proper codes, amounts of insurance and premiums or losses.

#### 14. GEOGRAPHICAL DIVISIONS

The state, and county codes must be recorded for all Farm and Ranch Policies. (see Place Codes for Texas - Counties).

#### 15. DEDUCTIBLE INSURANCE

Each premium and loss entry must be identified with the appropriate deductible amount.

#### 16. PREMIUM SURCHARGE - CLAIMS CODE

A policy which is surcharged due to excessive claims must be identified.

#### 17. EXPERIENCE TO BE REPORTED

It is preferable that reports of unit transactions of premiums and exposures written and a report of losses paid for each accounting month with a transmittal letter be sent to TDI monthly, within forty-five days after the close of the month.

A report of unit transactions of losses outstanding as of December 31 with a transmittal letter shall be sent to TDI within forty-five days after such dates.

The required reports must be submitted on magnetic tape.

Reports of experience, in required detail, summarized annually by the Texas Insurance Checking Office and filed on behalf of their subscribers for service, meet the requirements of this plan and are acceptable with TDI.

Once a year a reconciliation will be made.

#### 18. COMPANY NUMBER

Each reporting carrier shall identify each of its reported records by the COMPANY NUMBER assigned to it by the TEXAS INSURANCE CHECKING OFFICE.

#### 19. ACCOUNTING DATE

The month and year in which a transaction (other than one for an outstanding loss) was recorded on the books of the reporting carrier shall be shown. The month and year for which an outstanding loss was valued shall be shown.

#### 20. ZIP CODE

The 5 digit zip code of each risk must be reported. Report Plus 4 if available.

# 21. NAIC Company Number

The NAIC Company Number is now required and shall be entered in positions 146-150 for all records. Please note that the Company Number assigned by the Texas Insurance Checking Office (TICO) is still required in the appropriate positions.

# 22. New Statistical Agent

The Commissioner of Insurance has designated a new statistical agent for Texas residential property insurance. For all transactions on or after January 1, 1996, each company shall report its experience to the Texas Insurance Checking Office (TICO). The commercial property reports which will now be reported to TICO are:

- \* Farm and Ranch Premiums
- \* Farm and Ranch Losses

#### 23. New Transmittal Form

A new commercial property data submission transmittal form must accompany all data submitted to TICO. The transmittal form shall contain the following information:

- A. Company Name
- B. NAIC Company Code
- C. Record Count
  - 1. Farm and Ranch Premium
  - 2. Farm and Ranch Losses
- D. Totals for Significant Fields
  - 1. Written Premium
  - 2. Paid Losses
  - 3. Outstanding Losses

# E. Type of Reporting Medium

All reports shall be made to TICO on electronic media - - cartridge, diskette or CD. See instruction 24 for details on diskette reporting.

Cartridges shall be 3480 or 3490 with a block size not greater than 32700.

#### F. Record and Format Information.

If reporting on cartridge, report the block length of the file. All records on tape will have a length of 150.

If reporting on PC diskette or CD, report the format used. (See instruction 24 for details.)

G. Each cartridge, diskette or CD submitted must be labeled with company names, NAIC code, submission date and experience reported (i.e., 1/94 commercial property).

Each cartridge label must also include record length and block size, tape number (if multiple tapes are submitted), and format (EBCDIC or ASCII, labeled or unlabeled.) Each diskette or CD label must also include data format, file name(s) and disk number (if multiple disks are submitted).

# 24. DISKETTE REPORTING

PC diskettes shall be high-density 3 1/2" with the data presented in the following format.

\* Fixed ASCII: Standard Data Format (SDF);

#### 25. TEAR OUT AND REPLACEMENT OF BUILDING AND LAND COVERAGE ENDORSEMENT

Insurers shall report the use of any of the following endorsements which limit coverage for the cost of tearing out and replacing any part of the building and land necessary to access, repair or replace that part of a plumbing drain system located within or under the slab or foundation of coverage: TFR-054 and TFR-055. For all policies effective on or after October 1, 1996, all Farm and Ranch premium and loss records shall contain a one-position numeric code in position 143 using one of the following codes:

#### Code Instruction

- 1 Endorsement is attached to this policy.
- 2 Endorsement is not attached to this policy.

For all records with code 1 in position 143, positions 144-145 shall contain a two-digit numeric code indicating the amount of the credit associated with the endorsement reported as the percentage discount. Report a 20% discount as 20. Report no discount as 00.

Do not report this endorsement code or the discount amount as Individual Optional Credits in positions 46 or 81-83.

Rating Type	4th Digit
Type 1	1
Type 2	2
Type 3	3

<sup>\*</sup> Rating Type Code 9 may only be used in conjunction with 2nd & 3rd digits that do not represent a type rated Farm Building.

#### 12. ZIP CODE

The 5 digit zip code of each risk must be reported. Report Plus 4 if available.

#### 13. TOTAL RATING MODIFICATION FACTOR

Type Rating Not Applicable

The total rating modification factor applies to ISO program data (Policy Form code 9). Report a three digit factor reflecting all individual risk modifications (including those reported in the optional credits field) such as:

Individual Risk Premium Modifications

Account Premium Modifications or Similar Modifications

**Expense Modifications or Similar Modifications** 

Multiple Location Rating Plan or Premium Dispersion Multipliers

The factor should be rounded to two decimal places for reporting. If no modification is applicable report "100"

#### Examples:

Individual Risk Premium	Multiple Location Rating	<b>Expense</b>	Total Rating	Code
Modification or Account	Plan or Premium Dispersion	<b>Modification</b>	<b>Modification</b>	
Premium Modification	<u>Multipliers</u>		<u>Factor</u>	
None	None	None	None	100
None	None	None	.80	080
None	20% Credit	-10.5%	.716	072
25%	12% Credit	-10.5%	.599	060

#### 14. ISO COMPANY LOSS COST MULTIPLIER

The ISO Company Loss Cost Multiplier applies to ISO program data (Policy code 9). Report a three digit factor reflecting the relationship of company manual rate to the ISO advisory loss cost (in loss cost states). Companies unable to report the company loss cost multiplier may report "999" with prior notification to the statistical agent. The factor should be rounded to two decimal places. If no departure is applicable report "100".

#### Examples:

	ISO Company Loss Cost	<u>Company</u> <u>Manual Rate</u>	Company Loss Cost Multiplier	Code
Ex. #1	.20	.40	2.000	200
Ex. #2	.20	.34	1.700	170

TEAR OUT and REPLACEMENT OF BUILDING AND LAND COVERAGE ENDORSEMENT

Report one of the following codes for all transactions on or after October 1, 1996 to indicate if the policy contains one of the following endorsements: TFR-054 or TFR-055. These endorsements limit the coverage for the cost of tearing out and replacing any part of the building and land necessary to access, repair, or replace that part of a plumbing drain system located within or under the slab or foundation of the dwelling. Do not code this foundation exclusion/limited coverage endorsement elsewhere, i.e., do not report this foundation exclusion/limited coverage endorsement in positions 46 as Individual Optional Credits.

- Endorsement is attached to this policy
  Endorsement is not attached to this policy
  - TEAR OUT and REPLACEMENT OF BUILDING AND LAND COVERAGE ENDORSEMENT AMOUNT

Report the tear out and replacement of building and land coverage endorsement amount. Report 10% as 10. Report no discount as 00. Do not report the tear out and replacement of building and land coverage endorsement amount elsewhere, i.e., do not report this discount amount in positions 81-83 as Individual Optional Credits.

146-150 NAIC COMPANY NUMBER

\* Report the five-digit NAIC company number.

#### COLUMNS CODES TYPE OR DESCRIPTION

#### \* CLAIM COUNT

- A. Cases to be counted as claims must be only those in connection with which a loss payment has been made or a loss. No case shall be counted as a claim if it involves only allocated loss adjustment expense or the cost of bail bond.
- B. A claim closed without a loss payment shall not be counted as a claim.
- C. A claim partly paid and partly outstanding must carry the claim in the paid.
- D. A case involving loss payments under more than one differently coded statistical entry shall have a claim count for each such entry.
- E. Salvage, subrogation and other recoveries (not reinsurance) shall be recorded as a credit to claim count only if the recovery is the total cost of the claim reported under that statistical entry.
- F. A claim on which more than one payment is made shall only be counted once.
- G. In case of a loss involving two or more claims, each claim shall be counted and reported separately.

CODES

## PLACE CODES COUNTY

The five-digit series of Place Codes are constructed in such a way that the first three (3) digits identify the county. For risks that are located outside a city or town, county codes are provided with the last two digits being 00.

Example: County - Travis Risk is **outside** city limits of any town. - code: - 45300

Farm and Ranch Annual Experience Report Farm and Ranch Risks - Place Codes

## TEXAS STATISTICAL PLAN FOR

FARM & RANCHOWNERS

### TEXAS STATISTICAL PLAN

#### **FARM & RANCHOWNERS**

#### TABLE OF CONTENTS

	PAGES
A. GENERAL RULES	I-1 I-10
B. CODING SECTION	I-11 I-24
C. RECORD LAYOUT AND FIELD DEFINITIONS	I-25 I-49
D. PLACE CODE	I-50 I-52

#### 1. SCOPE OF THE PLAN

This plan applies to policies effective on or after September 1, 1987. It applies to the various coverages under Farm & Ranchowners Policies.

This plan is applicable to direct business written by the carrier. Necessary instructions for the recording of the captioned lines of business are given so that experience may be available in the detail required for reporting.

This plan is in loose leaf form and, as pages are revised or reprinted, all carriers will automatically receive these revised pages, which will have the changes indicated in the margins by a "\*". In the absence of supplemental instructions, revised pages are applicable to all new and renewal policies with effective dates on and after the date indicated in the lower right hand corner of the reprinted pages.

The Statistical Plan is printed in the following major divisions:

- (a) Section A Instructions pertaining to recording of business on carriers' records and reporting of experience.
- (b) Section B Codes

#### 2. METHODS OF RECORDING AND COMPILING EXPERIENCE

This plan is designed to develop experience on a Calendar/Accident Year basis. Such experience furnishes a comparison of the incurred losses on accidents or occurrences which took place in a given 12 month period with the amounts of insurance and premiums earned in the same period.

#### 3. RECORDING OF EXPERIENCE

Carriers may use any procedure for the recording of experience, including any type of record form convenient to their statistical or accounting procedure and any codes other than those set forth in this plan, provided only that experience can be reported by the carrier within the required time and in accordance with the requirements for the reporting of experience set forth herein. However, the adoption of the procedures outlined in this plan, together with the codes recited herein, should promote accuracy and save labor in the preparation of statistical data for the filing of experience.

#### 4. UNIFORM METHOD OF REPORTING EXPERIENCE

Every carrier shall report its experience in accordance with instructions issued by the Texas Department of Insurance and shall use the codes set forth in this plan in making such reports of experience. Each carrier shall report its experience in the detail required, and shall forward the executed affidavit, attesting to the accuracy and completeness of all experience reports submitted, shall be filed in accordance with instructions.

#### 5. REINSURANCE

The experience is to be reported on direct business only. Therefore, the reports of experience shall not include premiums received from or losses paid to other carriers on account of reinsurance assumed by the reporting carrier; nor shall any deductions be made by the reporting carrier for premiums ceded to or for losses recovered from other carriers on account of reinsurance ceded.

#### 6. AMOUNTS OF INSURANCE - PREMIUMS AND LOSSES

Amount of insurance (limits of liability) shall be shown on both premium and loss records. Amount of insurance (limits of liability) shall be recorded to the nearest thousand dollars of coverage of the original policy. Policies for amounts under \$1,500 will be recorded as 01.

For pro rata or flat cancellations, record the same amount of insurance originally recorded for the policy being canceled.

The amount of insurance to be recorded will be the amount of Coverage A on Farm and Ranchowners.

#### 7. PREMIUMS

Premiums on direct business shall be identified as premiums written, cancellations, or as all other additional and return premium endorsements by the Record Type Codes set forth in this plan. Such premium entries shall also be identifies by the other statistical codes shown in Section B of this plan.

Record premium from individual company filings of Farm and Ranchowners enhancement endorsements separately from remainder of policy using Record Type 95.

#### 8. EFFECTIVE AND EXPIRATION DATES

On premium records for new business and renewals, the effective month, day and year and expiration month and year of the policy must be shown. For cancellations (pro rata, or flat cancellation), the effective month and year of the cancellation as well as the expiration month and year of the policy being canceled shall be shown.

On loss records, accident month, day and year shall be shown in the same field as the effective date for premium entries.

#### 9. CANCELLATIONS

For a flat cancellation (effective as of the inception date of the policy), the coding of the cancellation entry must be identical with the original entry, except for the Record Type.

For pro rata cancellations, the coding of the cancellation entry must be identical with the original entry except for the Record Type and effective month and year which shall be the effective date of the cancellation.

#### 10. CHANGES BY ENDORSEMENT

If an endorsement effective as of inception date of the policy changes coding conditions or premium amount, the original entry should be reversed and a new corrected entry submitted. An additional and return premium endorsement effective after inception date of the policy should be coded Record Type 92 and contain the same coding as an original Record Type 91 entry.

#### 11. LOSSES EXCLUSIVE OF LOSS ADJUSTMENT EXPENSE

Losses are to be reported net as to recoveries under salvage, subrogation, and other recoveries (not reinsurance).

Each loss entry shall be identified by the proper Kind Code and show the appropriate Accident Month, Day and Year and, except as otherwise provided, the same statistical codes that were used to record the premium entry for the coverage under which the loss was incurred. In addition, each Loss entry shall show the Number of claims, Cause of Loss, and Type of Loss Code.

Loss adjustment expenses are not to be reported.

#### 12. NUMBER OF CLAIMS

Cases to be counted as claims shall be only those in connection with which a loss payment has been made or a loss reserve established. No case shall be counted as a claim if it involves only Loss Adjustment Expenses. A claim partly paid and partly outstanding shall be counted only once (but may be counted as either paid or outstanding). A claim on which more than one payment is made shall be counted only once.

A case involving a loss payment or the establishment of a loss reserve under several separate differently coded statistical entries shall have a claim count for each statistical entry.

Salvage, subrogation and other recoveries (not reinsurance) shall be recorded as a credit to claim count only if the recovery is the total cost of the case.

A claim closed without a loss payment shall not be counted as a claim.

#### 13. EXCESS LOSSES (Farm and Ranchowners Policies)

An Excess Loss is an occurrence resulting in an incurred cost to the carrier, exclusive of loss adjustment expenses, in excess of \$25,000 under Forms A and B. Carriers shall maintain records of accidents involving an Excess Loss. The claims comprising each multiple-claim accident involving an excess loss shall be so identified.

#### 14. ADJUSTMENTS

Adjustments of errors in the original coding are to be accomplished by making a reversal of the original entry and by making a new entry showing the proper codes, amounts of insurance and premiums or losses.

#### 15. GEOGRAPHICAL DIVISIONS

The state, and county codes must be recorded for all F.R.O. Policies. (see Place Codes for Texas - Counties).

#### 16. DEDUCTIBLE INSURANCE

Each premium and loss entry must be identified with the appropriate deductible amount

#### 17. PREMIUM SURCHARGE - CLAIMS CODE

A policy which is surcharged due to excessive claims must be identified.

#### 18. EXPERIENCE TO BE REPORTED

It is preferable that reports of unit transactions of premiums and exposures written and a report of losses paid for each accounting month with a transmittal letter be sent to TDI monthly, within forty-five days after the close of the month.

A report of unit transactions of losses outstanding as of December 31 with a transmittal letter shall be sent to TDI within forty-five days after such dates.

The required reports must be submitted on magnetic tape.

Reports of experience, in required detail, summarized annually by the Texas Insurance Checking Office and filed on behalf of their subscribers for service, meet the requirements of this plan and are acceptable with TDI.

Once a year a reconciliation will be made.

#### 19. COMPANY NUMBER

Each reporting carrier shall identify each of its reported records by the COMPANY NUMBER assigned to it by the TEXAS INSURANCE CHECKING OFFICE.

#### 20. ACCOUNTING DATE

The month and year in which a transaction (other than one for an outstanding loss) was recorded on the books of the reporting carrier shall be shown. The month and year for which an outstanding loss was valued shall be shown.

#### 21. ZIP CODE

The 5 digit zip code of each risk must be reported. Report Plus 4 if available.

#### 22. NAIC Company Number

The NAIC Company Number is now required and shall be entered in positions 146-150 for all records. Please note that the Company Number assigned by the Texas Insurance Checking Office (TICO) is still required in the appropriate positions.

#### 23. New Statistical Agent

The Commissioner of Insurance has designated a new statistical agent for Texas residential property insurance. For all transactions on or after January 1, 1996, each company shall report its experience to the Texas Insurance Checking Office (TICO). The commercial property reports which will now be reported to TICO are:

- \* FRO Premiums
- \* FRO Losses

#### 24. New Transmittal Form

A new commercial property data submission transmittal form must accompany all data submitted to TICO. The transmittal form shall contain the following information:

- A. Company Name
- B. NAIC Company Code
- C. Record Count
  - 1. FRO Premium
  - 2. FRO Losses

#### D. Totals for Significant Fields

- 1. Written Premium
- 2. Paid Losses
- 3. Outstanding Losses

#### E. Type of Reporting Medium

All reports shall be made to TICO on electronic media - - cartridge, diskette or CD. See instruction 24 for details on diskette reporting.

Cartridges shall be 3480 or 3490 with a block size not greater than 32700.

#### F. Record and Format Information.

If reporting on cartridge, report the block length of the file. All records on tape will have a length of 150.

If reporting on PC diskette or CD, report the format used. (See instruction 24 for details.)

G. Each cartridge, diskette or CD submitted must be labeled with company names, NAIC code, submission date and experience reported (i.e., 1/94 commercial property).

Each cartridge label must also include record length and block size, tape number (if multiple tapes are submitted), and format (EBCDIC or ASCII, labeled or unlabeled). Each diskette or CD label must also include data format, file name(s) and disk number (if multiple disks are submitted).

#### 25. DISKETTE REPORTING

PC diskettes shall be high-density 3 1/2" with the data presented in the following format.

\* Fixed ASCII: Standard Data Format (SDF);

#### 26. TEAR OUT AND REPLACEMENT OF BUILDING AND LAND COVERAGE ENDORSEMENT

Insurers shall report the use of any of the following endorsements which limit coverage for the cost of tearing out and replacing any part of the building and land necessary to access, repair or replace that part of a plumbing drain system located within or under the slab or foundation of coverage: FRO-455. For all policies effective on or after October 1, 1996, all FRO premium and loss records shall contain a one-position numeric code in position 143 using one of the following codes:

#### Code Instruction

- 1 Endorsement is attached to this policy.
- 2 Endorsement is not attached to this policy.

For all records with code 1 in position 143, positions 144-145 shall contain a two-digit numeric code indicating the amount of the credit associated with the endorsement reported as the percentage discount. Report a 20% discount as 20. Report no discount as 00.

Do not report this endorsement code or the discount amount as Individual Optional Credits in positions 46-47 or 80-82.

#### 11. SPECIAL ENDORSEMENT

CODE

Farm & Ranchowners - Replacement Cost Endorsement

1

#### 12. PREMIUM SURCHARGE - CLAIMS

CODE

Farm and Ranchowners - Form FRO-480

1

#### 13. ZIP CODE

The 5 digit zip code of each risk must be reported. Report Plus 4 if available.

#### 14. TOTAL RATING MODIFICATION FACTOR

The total rating modification factor applies to ISO program data (Policy Form code 4-9). Report a three digit factor reflecting all individual risk modifications such as:

Individual Risk Premium Modifications

Account Premium Modifications or Similar Modifications

**Expense Modifications or Similar Modifications** 

Multiple Location Rating Plan or Premium Dispersion Multipliers

The factor should be rounded to two decimal places for reporting. If no modification is applicable report "100"

#### Examples:

Individual Risk Premium	Multiple Location Rating	<u>Expense</u>	Total Rating	Code
Modification or Account	Plan or Premium Dispersion	<b>Modification</b>	<b>Modification</b>	
Premium Modification	<u>Multipliers</u>		<u>Factor</u>	
None	None	None	None	100
None	None	None	.80	080
None	20% Credit	-10.5%	.716	072
25%	12% Credit	-10.5%	.599	060

#### 15. ISO COMPANY LOSS COST MULTIPLIER

The ISO Company Loss Cost Multiplier applies to ISO program data (Policy Form codes 4 - 9). Report a three digit factor reflecting the relationship of company manual rate to the ISO advisory loss cost (in loss cost states). Companies unable to report the company loss cost multiplier may report "999" with prior notification to the statistical agent. The factor should be rounded to two decimal places. If no departure is applicable report "100".

#### Examples:

	ISO Manual Rate	ISO Advisory Loss <u>Cost</u>	Company Manual Rate	Company Loss Cost Multiplier	Code
Ex. #1		\$200	\$400	2.000	200
Ex. #2		\$200	\$340	1.700	170

TEAR OUT and REPLACEMENT OF BUILDING AND LAND COVERAGE ENDORSEMENT

Report one of the following codes for all transactions on or after October 1, 1996 to indicate if the policy contains one of the following endorsements: FRO-455. This endorsement limits the coverage for the cost of tearing out and replacing any part of the building and land necessary to access, repair, or replace that part of a plumbing drain system located within or under the slab or foundation of the dwelling. Do not code this foundation exclusion/limited coverage endorsement elsewhere, i.e., do not report this foundation exclusion/limited coverage endorsement in positions 46-47 as Individual Optional Credits.

- Endorsement is attached to this policy
  Endorsement is not attached to this policy
  - TEAR OUT and REPLACEMENT OF BUILDING AND LAND COVERAGE ENDORSEMENT AMOUNT
- \* Report the tear out and replacement of building and land coverage endorsement amount. Report 10% as 10. Report no discount as 00. Do not report the tear out and replacement of building and land coverage endorsement amount elsewhere, i.e., do not report this discount amount in positions 80-82 as Individual Optional Credits.

146-150 NAIC COMPANY NUMBER

\* Report the five-digit NAIC company number.

#### **CLAIM COUNT**

bond

- A. Cases to be counted as claims must be only those in connection with which a loss payment has been made. No case shall be counted as a claim if it involves only allocated loss adjustment expense or the cost of bail
  - B. A claim closed without a loss payment shall not be counted as a claim.
  - C. A claim partly paid and partly outstanding must carry the claim count in the paid record.
  - D. A case involving loss payments under more than one differently coded statistical entry shall have a claim count for each such entry.
  - E. Salvage, subrogation and other recoveries (not reinsurance) shall be recorded as a credit to claim count only if the recovery is the total cost of the claim reported under that statistical entry.
  - F. A claim on which more than one payment is made shall only be counted once.
  - G. In case of a loss involving two or more claims, each claim shall be counted and reported separately.

CODES

## PLACE CODES COUNTY

The five-digit series of Place Codes are constructed in such a way that the first three (3) digits identify the county. For risks that are located outside a city or town, county codes are provided with the last two digits being 00.

Example: County - Travis Risk is **outside** city limits of any town. - code: - 45300
