### Instructions

All network providers must be included.

Physician specialty types that are listed in Insurance Code §1301.00553 must be included in the Physician tab

Non-physician specialty types that are listed in Insurance Code §1301.00553, and required under 28 TAC §3.3704(f)(4) (durable medical equipment, pharmacy, optometry, and therapeutic optometry) must be included in the Non-Physician tab

Facility-based physician and provider types that are listed in Insurance Code §1301.0055(b)(4) must be included in the FB Physician or Provider tab

Facility types that are listed in Insurance Code §1301.0055(b)(4) and §1301.00553 must be included in the Facility tab

Additional provider types that are included in the network but are not subject to specific network adequacy standards must be included in the Additional Providers tab.

The quantity of physicians or providers reported must be consistent with the number reported in the applicable tab of the NCWR form. Providers reported on the Additional Providers tab should not be counted towards compliance standards as reported on the NCWR form.

For example, if an issuer has two physicians and seven nurses providing "Primary Care: Adults," in a given county, the issuer should report identify the two physicians in the Physician tab and the seven nurses in the Additional Providers tab. Within the NCWR form, the number of preferred providers would be reported as "2."
