

Informal Working Draft of Rules Relating to Surplus Lines

Title 28 Texas Administrative Code Chapter 15 Subchapter A and B
Sections 15.1 – 15.25 and 15.101

Posting date: July 22, 2016
Comments due: August 22, 2016

The Texas Department of Insurance has prepared an informal working draft of rules to update Chapter 15, relating to surplus lines. The informal draft contains possible changes to address statutory changes to the Insurance Code and to reflect general changes in the industry's business practices. In addition to the substantive changes, a reorganization of the chapter is also anticipated.

TDI envisions repealing the current rules and adopting changes as new rules simultaneously, which means that the proposed rules would not contain strikethroughs to show deleted text and underlining to show new text. To enable stakeholders to readily see the contemplated changes in the informal draft, TDI has posted a "red-lined" copy of the rules with the standard tracked changes, a "clean" copy of the rules, and a document comparing the current rule organization with the anticipated new organization.

The comment period for this informal posting will close at 5 p.m., Central time, August 22, 2016. Submit comments to Chris Osuna in the Company Licensing and Registration Office at Chris.Osuna@tdi.texas.gov, or call 512-676-6395 for more information about this informal working draft.

This is an informal posting and not a formal publication for rulemaking.
